Experience

1998-2013 Model/Instructor

Missy's Modeling Studio – McAllen, TX

The accreditation comes from the instruction in social and modeling skills we offer our students, which include poise, etiquette, fashion, hair and nail care, runway modeling and community involvement. Aside from teaching these valuable skills, our studio is committed to polishing up and perfecting our students to not only raise self-esteem, but to also make the individual a more well rounded person. Through the knowledge gained from our studio, students have moved on with their careers working with major motion picture companies, as well as retail giants, because our number one goal is to prepare the youth for the future to make them productive citizens in our communities. Missy's Modeling Studio models exclusively for La Plaza Mall, La Valle Vista Mall, and the Rio Grande Valley Premium Outlets. Missy's Modeling Studio is the only studio in the Rio Grande Valley to open up Concert events.

Thirteen O' Clock Theatre - McAllen, TX

Thirteen O' Clock Theatre exists to provide a home for passionate artists devoted to the cultivation of the theatrical arts. We are committed to unifying and serving our community through high-quality, innovative performances in an inviting, enjoyable atmosphere. We strive to embrace and empower the art within ourselves and be the standard for Theatre in the Rio

Grande Valley. Finally, the idea of a theatre as a group of people who come together to work hard, yet joyfully, who know how to love and how to forgive each other, and who are happy in what is both the most terrible and the most beautiful trade in the world.

08/2007 to 05/2009 Student/Actress

AADA - Los Angeles, CA

To work as an actor meant only one thing: going on stage, in a theatre, before a live audience. Today, it is likely that much of an actor's working life will be spent before the camera, rather than on the stage. (It should be noted, however, that actors who have had the greatest success in films and television are those who have had stage training and experience.) The Academy's goal is to fully prepare its students for any professional opportunity.
