**Vineyard**
Our vineyard estate sits at an altitude of 1,300 feet in the Mayacamas Mountain Range. It benefits from the cool, evening Pacific Ocean breezes and receives early morning sun as it is above the fog line. All vines are grafted on 110R rootstock. We have two clones of Cabernet Sauvignon: Clone 7 and Clone 15.

**Winemaking**
The grapes were fermented in one ton, insulated fermenters and manually punched down, by the owner, 3-4 times per day. Fermentation lasted 8-14 days and then basket pressed. The young wine was transferred to oak barrels for the completion of primary and secondary fermentation.
