CAPABILITY STATEMENT

ABOUT GSMS

Global Star Management Solutions (GSMS) delivers innovative solutions in the areas of *Administrative Management, Logistics Management, Facilities Management, and Information Technology Management*. Our capabilities are comprised of mobilizing subject matter experts equipped to develop executable strategies and evidence-based practices that lead to sustainable solutions.

DIFFERENTIATORS

Global Star Management Solutions LLC was founded by our CEO, **Kevin E. Bonner**, a retired U.S. Air Force senior non-commissioned officer. His military career coupled with his service as a federal government contractor brings over 30 years of experience in GSMS' core capabilities. He has provided senior level project management oversight and was the linchpin for the client and an architectural-engineering design team with project planning and execution of 13 military construction phases totaling over \$678M. This initiative renovated 3,747 military family housing units and two infrastructure phases that spanned across 19 neighborhoods in five geographically separated military installations across Okinawa, Japan. Our CEO has comprised an extensive global network of well-versed managers, technicians, and technology partners near multiple military installations. Leveraging Kevin's network will bring innovative and sustainable solutions to any organization.
