## Welcome Message

Distinguished delegates, and honored guests,

On behalf of members of Ain Shams Audiology Unit, ORL department, it is my utmost pleasure to extend a warm and heartfelt welcome to you to share with us the grand celebration of the Golden Jubilee; an occasion that marks 50 glorious years of excellence in the field of Audiology.

The success of this journey started when the late Dr. Aly El Mofty had the vision of bringing the science of Audiology into Egypt at a time when no one else did. His dedication to making this vision a reality led us to the second chapter of the journey when Dr. Salah Soliman put this vision into action travelling far and wide to gain as much knowledge and information as possible to build the base for this unit and pioneer the profession in Egypt and the Arab World. The strong team that followed in his footsteps with determination and perseverance helped us get to where we are today.

May the Golden Jubilee of Ain Shams Audiology Unit be a catalyst for progress, innovation, and collaboration, and may your time in Luxor be filled with joy, enlightenment, and cherished memories.

Thank you, and let the celebration begin!

Conference President  
Head of Audiology Unit  
Prof. Wafaa El Kholy
