Flea and Tick Owner Prep Sheet

The success of your flea and tick treatment will be dependent on the following instructions. Proper preparation before treatment, and your follow-up post treatment, will determine the success of your flea and tick issue. Failure to follow the directions can void your warranty.

*Warranty is 30 days from the initial treatment since fleas and ticks can be brought back into the structure. Service includes initial service, and one follow-up visit one week later.

1. If you do have pets make sure they are checked for any active fleas or ticks and have them treated accordingly.
2. Take all cloth items such as clothes, dish towels, bath towels, blankets, pillow cases, if possible couch cushions, and cloths and launder them. Place items in plastic bags after drying and have them removed from the property.
3. Take all children's toys and place them in a plastic bag and remove them from the home.
4. Upon returning home, vacuum all carpets and rugs.
5. DO NOT SHAMPOO OR STEAM CARPETS AND RUGS FOR 72 HOURS.

NOTE: Please be ready to vacate the home for a **minimum of 4 hours** after the treatment is performed.

NOTE: If you have any respiratory issues please vacate for an extended period of time.

NOTE: Children below the age of 4, or elderly people above the age of 80 has a required vacancy of 8 hours.

NOTE: Please disclose any medical issues to your technician so they can inform you of the proper vacating time frame.
