Summary

Preparing to install Installation preparation Installation prep

Description

Please visit the [Sage 50 US Welcome Center](#) for help on getting started or getting the most value from your software.

Resolution

Need assistance installing? Prefer to have someone install Sage 50 for you? Need to schedule a time to install? Let our Sage Expert Services handle this for you. DocLink: [Click here](#) to find out how you can schedule your appointment today. There's no wait!!

-
- Verify all computers meet the minimum system requirements. Refer to [System Requirements: Sage 50—U.S. Edition 2024](#).
 - Before starting the install, close all other Microsoft and non-essential programs on the computer.
 - Turn off your anti-virus for the duration of the installation process.
 - Leave your firewall on and enable notifications.
 - Make sure the User Account Control (UAC) is set to a minimum, not maximum. This may require Admin access. Consult with IT personnel if necessary.

If upgrading your current version of Sage 50:

- Back up all companies. Refer to Article ID 10264: DocLink: [How do I create or make a backup?](#)
- Have all users exit Sage 50 before starting the install on the server.
