## Grateful, Thankful & Blessed

Happy November - a time to reflect and be thankful for all the great things and people in our lives.

I'm truly grateful for the time I've spent this year with other crafty ladies. So many memories made, friendships started and fun times.

Take some time this month to send a thank you card, maybe not even for something specific, but just because you are lucky someone is in your life.

This week I'm tying the bows on the Advent kits and am ready to ship - let me know in the next few days if you'd like to purchase one for yourself or for a gift.

**Be on the lookout for upcoming sales from Stampin' Up! for Black Friday and Cyber Monday.**

My next crafting event will be Saturday, December 6th RSVP soon!

I hope you all have a blessed Thanksgiving.

Tina

## The Create a Card A Day Advent Kits are ready to deliver!

I'm offering something new this year - a kit of 24 different cards so you can make one everyday in December while you count down to Christmas.

Plan now to give yourself a little creative 'me time' during the holidays. This would also be a fabulous gift for your crafty friend or relative.

The first week of cards are Holiday/Christmas themed, the rest cover birthdays, thank you and other occasions.

It has been so much fun designing these cards for you! I love the variety of themes, papers, colors and sentiments. You can see a sneak peek of many of the elements in [this video](#).

There are a limited number of kits available. The cost of the kit is \$75.

The kits can be picked up locally or shipped to you for an additional \$10.

The kits will be delivered / shipped over the next week.

In the kit you will receive 24 individual sealed packets with the card base, envelope, pre-cut papers and embellishments along with a picture of the completed card and instructions for each. You will supply the adhesives needed to assemble the cards.

Open one each day and create a beautiful, but easy to assemble card. There will be Facebook and Youtube instructional videos each day for additional

instruction, discussion and sharing your completed projects. I especially love when people kick it up a notch with their own design or added embellishments.

An adhesive add-on kit is also available for \$20 and includes glue, dimensional and mini dimensional and tear and tape - everything you need to complete these cards. As a bonus, I'm including a zippered canvas bag to hold your adhesives. .
