Hello!

Welcome to Stampin' Up!—we're glad you're here! We believe that sharing experiences, building relationships, and making a difference in the lives of others is what truly matters. If this speaks to your heart, let's work together!

Whatever your celebration, recognition, and connection needs are this season, our paper crafting products are designed with purpose and coordination to help you have rewarding and memorable creative experiences.

Now's the perfect time to make something that means something for you and those you care about!

Heartfelt Messages Matter!

Over the years, my husband, Sean, has invited the guys in our neighborhood over to make Valentine's Day cards for their sweethearts. We design a card that's simple to make (seriously so simple—we only use one ink pad), set out all the supplies, and provide some snacks, of course!

When they first arrive, I can tell they're a bit unsure about where to start. But as soon as they ink their first stamp and press it onto grid paper for some practice, I'm surprised by how quickly the creativity takes over! They joke with each other and give tips as they learn how to use adhesive or a punch. I love how creative activities like this can bring people together!

Once their cards are complete, we encourage them to do the most important thing when it comes to card making: writing a heartfelt note

on the inside. Some take time to write their message right then and there, while others want to think about it first. Either way, our hope is that they understand that the written words on the inside of the card are the most meaningful part!

After Valentine's Day we sometimes hear how the cards were received, and that makes us smile . . . knowing a relationship was strengthened because of something as simple as a card. It doesn't matter what type of relationship you want to support, there are ideas and products throughout this catalog to help. And if you're up for it, host a Valentine's craft night of your own! Or add your own twist and try a birthday card party, a Mother's Day craft night, or another creatively themed gathering you and your friends will enjoy together.

Quick & Easy Options

We've simplified the crafting process for when you want something quick & easy. Need a sweet birthday tag before heading out the door? Done. A special card for a special someone? You bet. A celebration card that looks as celebratory as you feel? Absolutely. Whether you craft all the time or just want to try something new, Quick & Easy options give you all the fun of personalized crafting in less time and space!

Don't be fooled by the samples on this page—they are visually stunning but so simple to make. We have printed cards with matching envelopes, precut designed images and sentiments, and Ephemera Packs—everything you need for a fun and simple crafting experience.

If you need help designing a card or tag, check out the templates on p. 12. They're a great resource for layout design. When picking a style direction, think about who the craft is for. What's their favorite color? What do they enjoy? Use that person as your source of inspiration when choosing Mix & Match pieces.

When you're ready to start, take a seat (on a chair, the floor, your bed—you can do this almost anywhere!) and make meaningful crafts in a matter of minutes.

Bokeh

It's the blurry effect created in an out-of-focus background when light hits a camera lens. This technique was the inspiration for this Designer Series Paper!

Let Your Imagination Take Flight

Our Beautiful Bokeh Suite Collection includes tons of options for creativity. You can stamp wing accents, emboss butterfly details—you can even create butterfly-shaped cards! There's truly no end to what you can create with this suite's coordinating products.

How to Make a Butterfly Card

Cut out your card front with the large butterfly die. Then flip the die around and line its top edge to the edge of the cut butterfly. After that, die cut the back of the card. Once done, fold the cardstock over.

Use the embossing folder on its own.

Or pair it with the dies!

Why Craft with a Stampin' Cut & Emboss Machine?

Because the machine does the work so you can have the fun! With a machine, dies, and embossing folders, you can create precise die-cut elements and touchable embossed backgrounds in seconds. No scissors needed. Many of our dies have coordinating stamps so the images and shapes pair beautifully.

It comes in two sizes: standard size and mini.
They both have the same great features.

Go Big

The platform on the standard size machine is 6" (15.2 cm) wide and 9" (22.9 cm) long and works with all of our dies and embossing folders.

Or Go Small

The platform on the highly portable mini machine is 3-1/2" (8.9 cm) wide and 7" (17.8 cm) long and works with many of our smaller dies and embossing folders.

Sleek Design

The rotating handle is comfortable and easy to turn, and the platform folds for storage and travel.

Why You'll Love Stamps

We have a few different types of stamps: cling, photopolymer, Reversibles, Distinktive™, and Two-Step. Here's more about what they are, what they do, and why you'll love 'em!

Cling

The images in a cling stamp are deeply etched into high-quality rubber for crisp, detailed images. The rubber surface is the perfect canvas to play with inking techniques.

Photopolymer

Photopolymer is a clear material that allows you to see exactly where you're setting your stamp for precise stamp placement and alignment.

Reversibles

These stamps are made from a specialized photopolymer that can be stamped on both sides. One side of the stamp is the general shape, and the other side has all the details.

Distinktive™

These stamps have a special texture that holds varying amounts of ink to create photo-realistic results. Distinktive stamps can look like you watercolored an image by hand!

Two-Step

Layer two or more images to create one final image with Two-Step stamps. Whether you're layering floral details or building an ocean scene, these stamps are designed for creative customization!

SHOP OUR STAMPS ONLINE AND **FILTER BY STAMP TYPE**
TO FIND YOUR PERFECT STAMP

Reversibles stamps give you options for stamping detailed images and shadows as well as layering colors and textures for added depth.

Stamps are reversible. Ink and stamp either side.
