

You have had friend requests from these four profiles. What should you do?

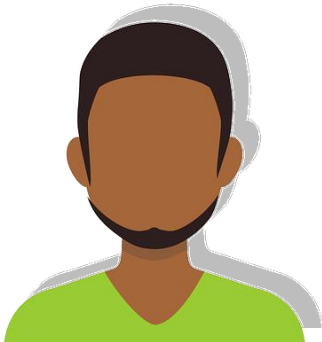

**Username: MarkyBoi**

Mark is a boy in your class. You know him well and you have been friends for a long time. You were expecting his friend request because you had shared your usernames in school.

**Username: Lili-Rose2005**

Lili-Rose seems like a nice girl. She says nice things to you and says she is the same age as you. You don't know anyone in real life called Lili-Rose but she says that she has seen you around. She wants to meet up with you and asks you for your home address.

**Username: SmartyMarty**

Marty is an older boy. He used to go to your school but now he is in high school. He has a reputation in your area for using bad language and being unkind to younger children but he still seems quite popular. Marty is also known for being an excellent gamer.

**Username: Sammy-G-Swimmer**

Sammy goes to another school but you know her a little as you swim in the same club. Last week in swimming she mentioned that she was moving to your school and she would like to be friends online so she has some friends when she starts. She seems nice but you don't know a great deal about her.
