Knowledge Can Change the Direction of a Life

The Rian Ryelee Foundation believes that generations do not change by accident. Cycles of financial instability, limited opportunity, poor decision-making, and generational barriers can be interrupted when people have access to practical knowledge, education, mentorship, and opportunity.

Many people are doing the best they can with the information and resources available to them. Yet too many young people and adults move through important stages of life without being taught how credit works, how banking and contracts affect them, how laws and legal systems operate, how to build wealth, or how certain decisions can create consequences that follow them for years.

The Generational Curse Breakers Initiative is designed to help close that knowledge gap.

OUR FOUR AREAS OF IMPACT

Financial Literacy & Generational Wealth

Practical education on credit, banking, saving, investing, entrepreneurship, taxes, business ownership, and long-term financial stability.

Legal Literacy & Understanding the System

Helping individuals better understand laws, legal processes, rights, responsibilities, contracts, and the potential consequences of decisions.

Advocacy & Civic Education

Equipping people to understand how systems work, how laws are created, and how to effectively advocate for themselves, their families, and their communities.

Next Generation Leadership & Opportunity

Creating pathways through fellowships, internships, mentorship, civic education, and exposure to new careers and possibilities.

Our goal is simple: help people make informed decisions before a lack of knowledge becomes a life-changing mistake.

The Knowledge Is Freedom Initiative

Financial Literacy. Legal Literacy. Informed Decisions. Stronger Futures.

The Knowledge Is Freedom Initiative is the educational impact engine of the Rian Ryelee Foundation. It is designed to provide accessible, practical learning experiences that help people better understand the financial, legal, civic, and personal decisions that can shape their futures.

The initiative can support workshops, fellowships, mentorship, educational programming, community events, resource development, and partnerships with qualified educators and professionals.

CORPORATE PARTNERS CAN HELP SUPPORT:

- Credit, banking, saving, investing, and financial decision-making education
- Entrepreneurship, business ownership, contracts, and generational wealth education
