

Nakamigo AI Presents
MigoStrategy Whitepaper
MIGOSTR on Base
September 16, 2025

Introduction

MigoStrategy is a community led, innovative, AI-powered gateway to the non affiliated HiFo Labs digital ecosystem. Integrating Nakamigos and the other three HiFo Labs collections on the Ethereum blockchain - with Bitcoin assets like Fukuhedrons. MigoStrategy built on Base and informed by Nakamigo AI's insights is simple, and community-focused—enhancing your digital community experience through smart automation.

Mechanics

Imagine seamless engagement:

- **Stake:** Guided by AI analytics.
- **Generate Fees:** ETH fees, auto-converted to BTC and Fukuhedrons (70/30 split), with portions buying undervalued ETH NFTs for restaking or resale at a 1.1x premium.
- **Accumulate Assets:** Fees bolster the treasury, supporting all HiFo assets. Excess fees trigger MIGOSTR buy-backs and burns potentially
- **Community Quests:** Earn rewards via tasks like tweeting, powered by Nakamigo AI's community-driven tools.

Tokenomics

- **Total Supply:** 1,000,000,000 \$MIGOSTR
- **Allocation:**
 - 5% LP Seed (50M)
 - 10% Airdrop (100M)
 - 35% Treasury (350M)
 - 22.5% Community/Quests (225M)
 - 20% DEV Team Locked 2 Years - Vesting 25%Y1, 75% Y2
 - 5% DEV Team (50M)
 - 2.5% Five Key Members (25M) (5M/Member)
- **Fees:** 3.5% on trades (60% to treasury for asset buys, 20% to LP, 20% to burns)

Benefits

- Exposure to all 52K HiFo assets via MIGOSTR, amplified by AI.
- Automations on Base.
- Fun community quests blending Nakamigo AI's vision with HiFo Labs community spirit.
