

HALL OF FAME

Air Force Cyberspace Operations and Support

In 1999 the Air Force established the Communication and Information Hall of Fame to honor those individuals who made significant contributions, both to the the Air Force and our career field, while serving in public and private sectors. Our 20th century Foundation Setters are Air Force leaders who began the tradition of excellence which led to critical communications and information capabilities for today's and tomorrows Air Force. Each year new members are inducted into the Hall of Fame, they are visionaries who guided the Air Force toward a technological and information-enabled future. Their dedication, vision, patriotism, and honor established a proud legacy on which we continue to build today's information superiority.

Class of 2022 Inductee

Rob Thomas II
