

# Quant 101

BFS Winter 2026

February 2, 2026

# What is Quant?

# Quantitative Finance

# Four Pillars of Quant Finance

01

## Mathematical Models

Probability, statistics, and optimization

02

## Backtesting

Strategy tests before risking real capital

03

## Automation

Utilizing algorithms to execute trades with speed and precision

04

## Risk Management

Monitoring drawdowns, volatility, tail events

# Applications of Quant Finance

# Core Functions

## Asset Pricing & Valuation

- Determining fair value for **options, derivatives, and bonds**
- **Tools:** Black-Scholes model and Monte Carlo simulations

## Portfolio Optimization

- Allocating assets to **maximize returns** for a specific risk level
- **Framework:** Modern Portfolio Theory (MPT) and mean-variance optimization

## Risk Management

- Predicting potential losses from market volatility and credit exposure
- Developing models to survive "**Black Swan**" or adverse market events

# Industry Uses

## Algorithmic Trading

Executing trades with **machine learning** to maximize speed and remove human bias

## Hedge Fund Strategies

Using **statistical arbitrage** and trend analysis to generate profits in all market conditions

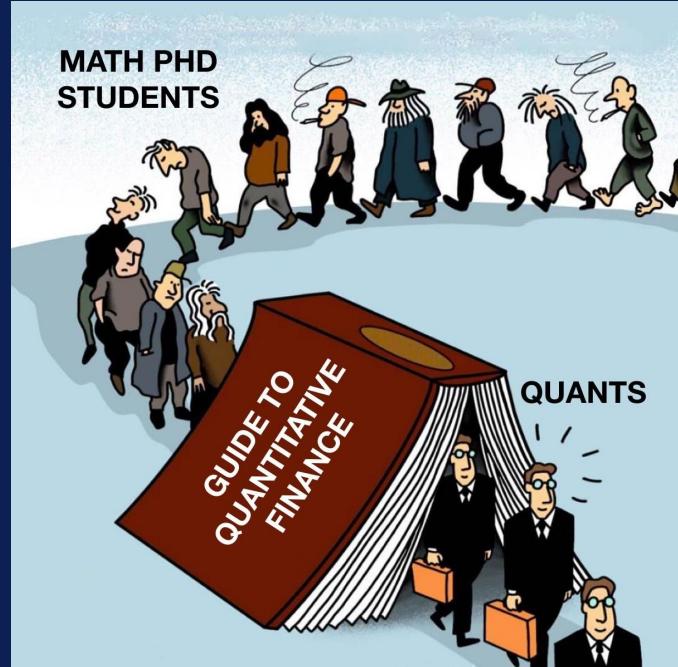

## Credit Risk Assessment

Evaluating borrower data to predict **default likelihood** and price loans accurately

# Careers in Quant

# Careers in Quant

## Researcher

Designs models and backtests strategies

## Developer

Implements models and optimizes trading infrastructure

## Trader

Manages live positions and executes trades based on model outputs

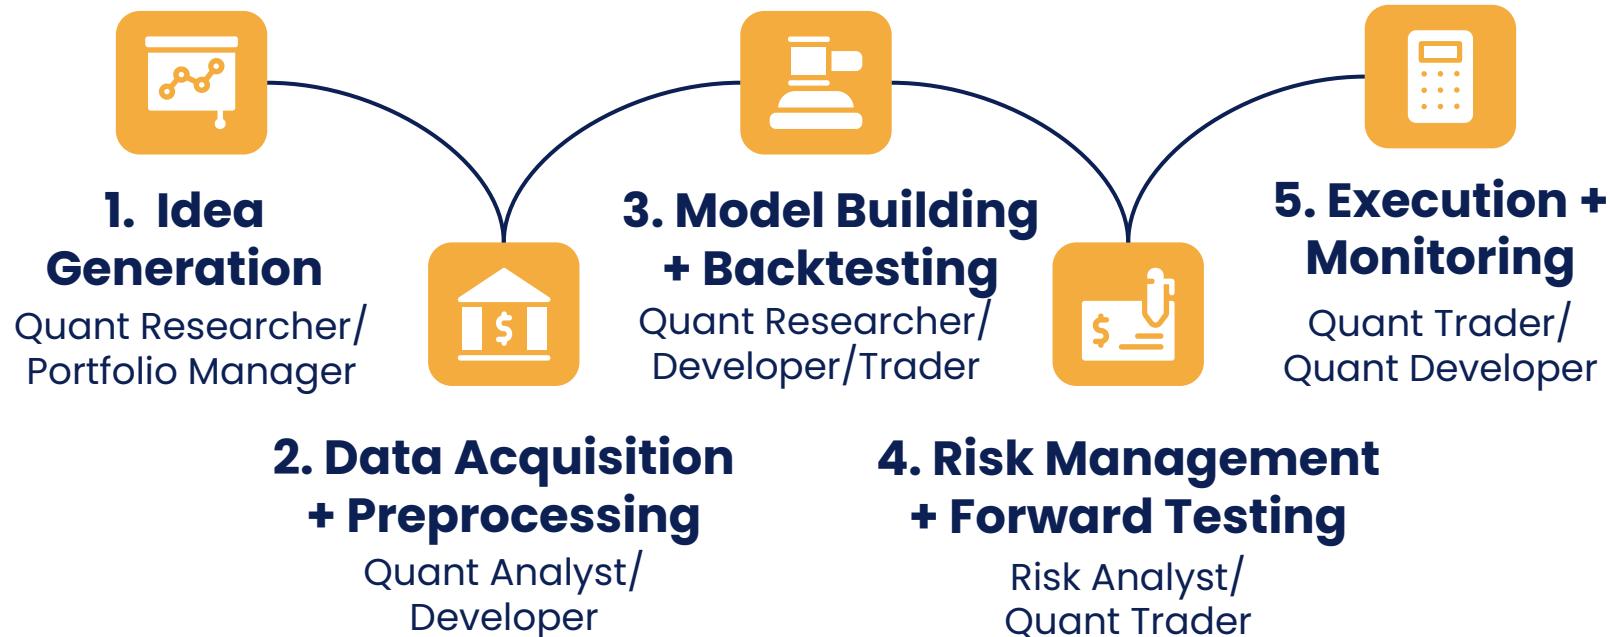

## Risk Analyst

Measures market exposure and executes hedging to ensure compliance

## Portfolio Manager

Directs asset allocation to meet long-term client goals and risk targets

# Quant Strategy Lifecycle

# Key Quant Strategies

## Statistical Arbitrage

Capitalize on market inefficiencies

## Factor Investing

Target specific drivers of return

## Risk Parity

Allocate by risk rather than capital

## Machine Learning/AI

Process large datasets, simulate decision-making

# Time Series Patterns

**Time Series:** data collected over regular time intervals, helps us understand market behavior

- E.g. stock price over time

**Core Ideas** in time series market data:

- Momentum
- Mean Reversion
- Volatility Clustering
- Regime Shifts
- Fat Tails + Black Swans

**Time Series Analysis:** identify trends, seasonal/cyclical patterns, generate predictions

- Autoregressive Integrated Moving Average (ARIMA)

# Technologies and Tools

## Programming Languages

Python, R, C++, Java  
MATLAB, Julia

## Data Visualization Tools

Tableau, PowerBI,  
Python Matplotlib

## Cloud Computing

AWS, Google Cloud,  
Microsoft Azure

## Machine Learning/ AI Frameworks

Scikit-Learn, LLMs,  
TensorFlow, PyTorch

## High-Performance Computing Systems

Supercomputers, GPU  
clusters, high-speed servers

# Requirements

## Education

- Bachelors (groundwork)
- Masters (desired)
- PhD (ideal for research/niche topics)

## Technical Skills

- Mathematics
- Financial Acumen
- Programming

## Soft Skills

- Problem-Solving
- Communication
- Detail Orientation

# Recruitment

## Online Assessments (OAs)

- Math/logic tests
  - mental math, stats/probability, trading/gambling simulations
- Zetamac to practice mental math

## Interviews

- Probability, statistics, problem solving
- Assess aptitude in math, stats, cs, finance, and problem-solving

# Thanks!

# Introduction

**n**Images reveal large amounts of data, so remember: use an image instead of a long text. Your audience will appreciate it

01

# Objectives

You can enter a subtitle here if you need it

# The slide title goes here!

Do you know what helps you make your point clear?

Lists like this one:

- They're simple
- You can organize your ideas clearly
- You'll never forget to buy milk!

And the most important thing: the audience won't miss the point of your presentation

# The slide title goes here!

## Mercury

Mercury is the closest planet to the Sun and the smallest one

## Venus

Venus has a beautiful name and high temperatures

# Objectives

## Stopping poverty

Mercury is the closest planet to the Sun and the smallest one

## Sustainable development

Venus has a beautiful name and high temperatures

02

# Obstacles

You can enter a subtitle here if you need it

# Obstacles

## Geopolitical factors

Venus is the second planet from the Sun

## Commercial disputes

Jupiter is the biggest planet of them all

## Financial volatility

Saturn is a gas giant and has several rings

## Non-economic factors

Despite being red, Mars is a cold place

03

# Key elements

You can enter a subtitle here if you need it

# Key elements

## Private sector

Venus has a  
beautiful name

## Government

Mercury is the  
smallest planet

## Civil society

Earth is the planet  
we live on

# Key elements

## Data A

Venus is a hot planet

## Data B

Jupiter is a big planet

## Data C

Mars is a cold planet

## Data D

Mercury is a small planet

# Risks

## Volatility

Mercury is the smallest planet

## Debts

Jupiter is the biggest planet of them all

## Imbalance

Venus is the second planet from the Sun

## Salaries

Earth is the planet we live on

## Uncertainty

Mars is actually a very cold place

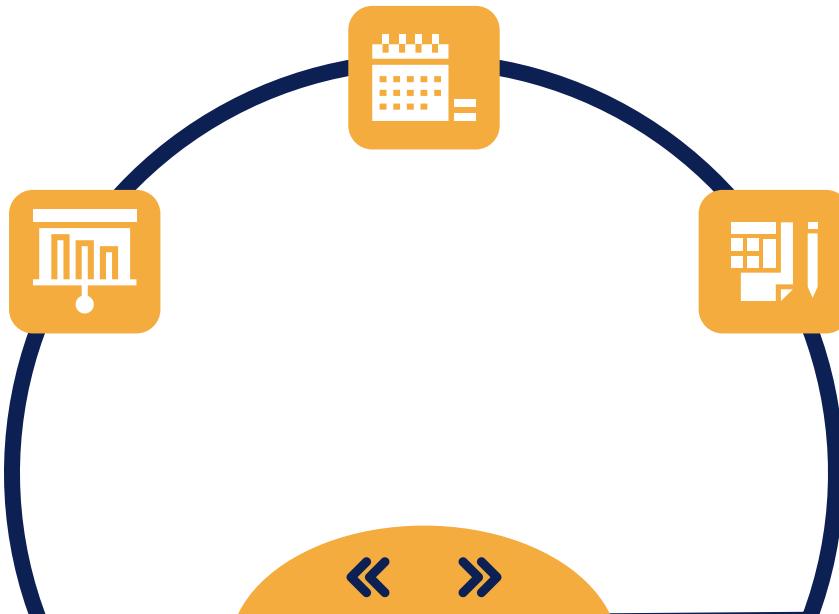

## Financing

Neptune is very far from the Sun

# Risks

## Money

Jupiter is the biggest planet

## Debts

Saturn is the ringed planet

## Loans

Neptune is far away from us

# Awesome words

“This is a quote, words full of wisdom that someone important said and can make the reader get inspired.”

—**Someone Famous**

A picture is worth  
a thousand words

# A picture is worth a thousand words

# Main keys for bank day

Images reveal large amounts of data, so remember: use an image instead of a long text. Your audience will appreciate it

A photograph of a woman with long brown hair, seen from the side and back, wearing a blue denim jacket. She is sitting at a desk, using a silver laptop. Her right hand is on the keyboard, and her left hand is holding a red and blue credit card. In the background, there's a pink and yellow patterned bag.

# Main keys for bank day

Images reveal large amounts of data, so remember: use an image instead of a long text. Your audience will appreciate it

# 150,000

Big numbers catch your audience's attention

# 386,000 km

Distance between the Earth and the Moon

# 333,000

The Sun's mass compared to Earth's

# 9h 55m 23s

Jupiter's rotation period

# 333,000

The Sun's mass compared to Earth's

# 9h 55m 23s

Jupiter's rotation period

# Profitability percentage

**25%**

**50%**

**75%**

Venus is the second planet from the Sun

Mars is actually a very cold place

Mercury is the smallest planet

# Profitability percentage

**Venus**

Venus is the second planet from the Sun

**Mars**

Mars is actually a very cold place

# Structure of banking industry

Bank name	Type	Banking system
Write here the name...	International	Conventional
Write here the name...	Local	Digital
Write here the name...	International	Digital
Write here the name...	Local	Conventional

# Currency checklist

Name	Symbol	Description
✓	\$	Mercury is the smallest planet
✗	€	Venus has a beautiful name
✓	¥	Mars is actually a very cold place
✗	£	Jupiter is the biggest planet

# Global overview of banking

## Venus

Venus is a beautiful name

## Mars

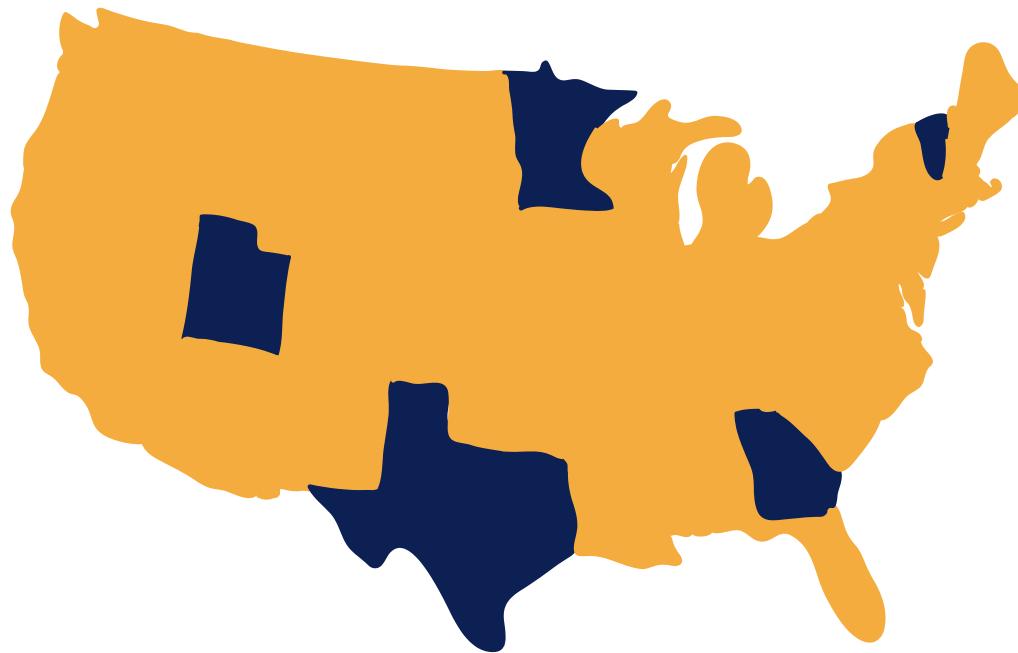

Mars is actually a cold planet

# USA overview of banking

## Mars

Mars is actually  
a cold planet

# Number of new banks

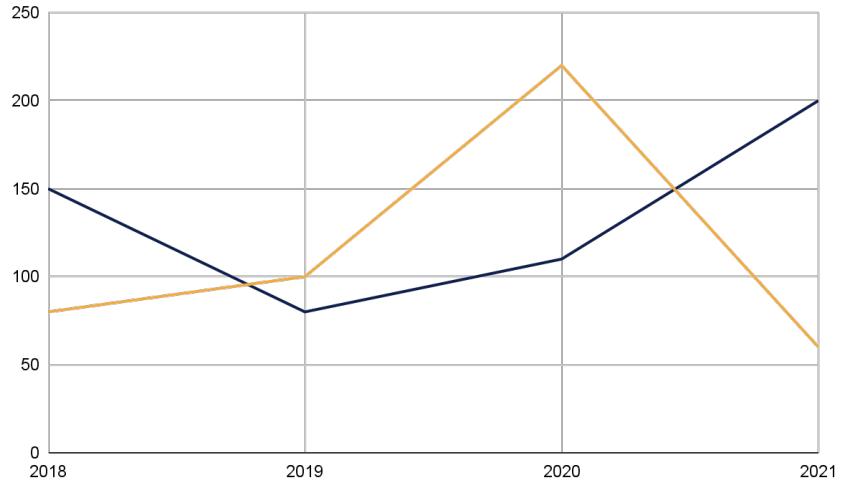

## Digital

Venus has a beautiful name

## Non-digital

Jupiter is the biggest planet of them all

■ Non-digital ■ Digital ■ Traditional

Follow the link in the graph to modify its data and then paste the new one here. For more info, click [here](#)

**25%**

Jupiter is the biggest planet of them all

**25%**

Venus has a beautiful name, but also high temperatures

**50%**

Despite being red, Mars is actually a cold place

# The benefits of banking

## Loans

Neptune is the farthest planet from the Sun

## Mortgage

Jupiter is the biggest planet in the Solar System

## Charges

Saturn is a gas giant and has several rings

## Assets

Despite being red, Mars is actually a cold place

# The benefits of banking

## Loans

Neptune is the farthest planet from the Sun

## Mortgage

Jupiter is the biggest planet in the Solar System

## Charges

Saturn is a gas giant and has several rings

# History of the event

**1990**

Venus is a  
beautiful place

**2015**

Mars is a very  
cold planet

**2020**

Neptune is far  
away from us

**2002**

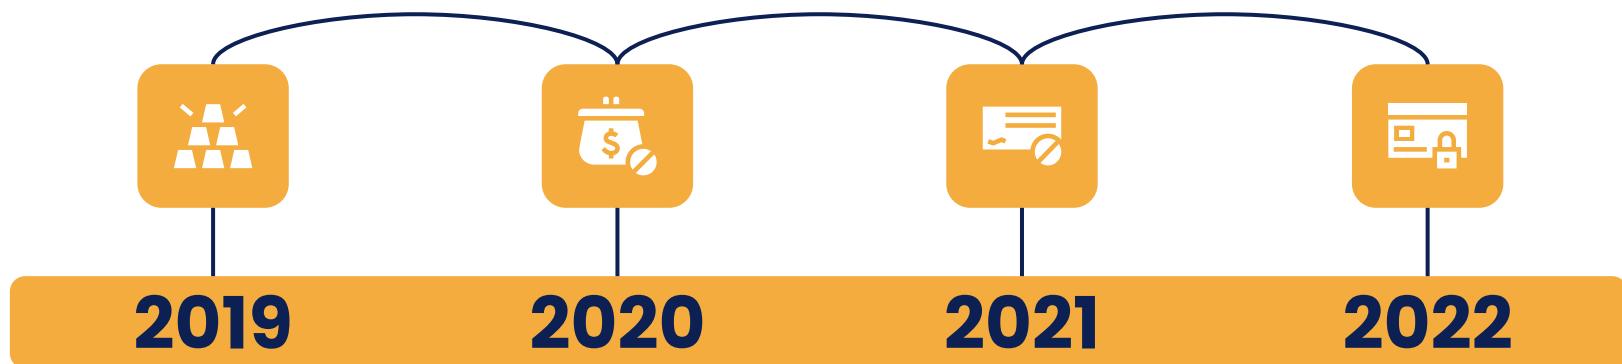

Saturn is the  
ringed planet

**2019**

Jupiter is the  
biggest planet

# History of the event

## Saturn

Saturn is the ringed planet

## Jupiter

Jupiter is a big planet

## Earth

Earth harbors lots of life

## Mars

Mars is a very cold planet

# When is it celebrated?

**December 4th**

Mercury is the closest planet to the Sun

Mon	Tue	Wed	Thu	Fri	Sat	Sun
29	30	1	2	3	4	5
6	7	8	9	10	11	12
13	14	15	16	17	18	19
20	21	22	23	24	25	26
27	28	29	30	31	1	2

# When is it celebrated?

## Check list for the day

- Go to the bank
- Call to the bank
- Open a bank account
- Deposit money
- Transfer money
- Ask for a loan

## Notes for the day

- Jupiter is the biggest planet
- Mars is actually a cold planet
- Mercury is the smallest planet
- Neptune is far away from the Sun
- Saturn is a gas giant and has rings
- Earth is the third planet from the Sun

# Banking progress

## Step 1

Mercury is a small planet

## Step 3

Mars is a very cold place

## Step 2

Saturn is the ringed planet

## Step 4

Jupiter is the biggest planet

# Banking progress

## Step 1

Mercury is the closest planet to the Sun and the smallest

## Step 2

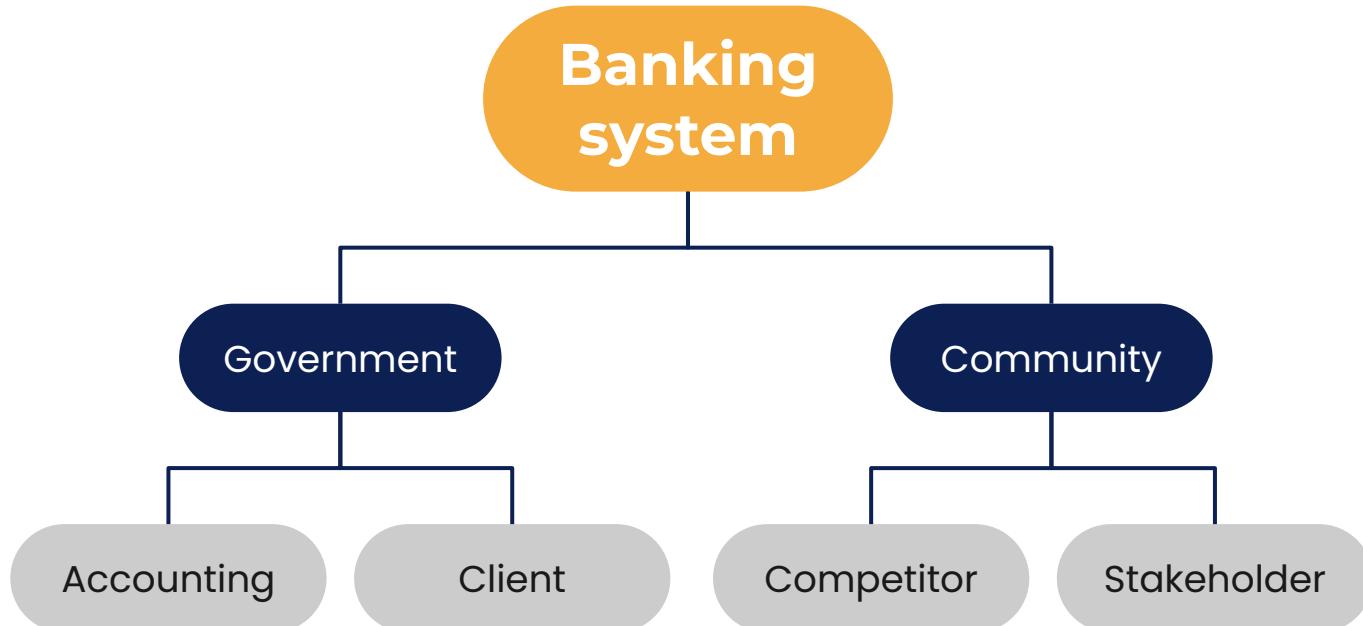

## Step 2

Venus has a beautiful name, but also high temperatures

Despite being red, Mars is actually a cold place

# Instructions for use

In order to use this template, you must credit Slidesgo by keeping the **Thanks** slide.

**You are allowed to:**

- Modify this template.
- Use it for both personal and commercial projects.

**You are not allowed to:**

- Sublicense, sell or rent any of Slidesgo Content (or a modified version of Slidesgo Content).
- Distribute Slidesgo Content unless it has been expressly authorized by Slidesgo.
- Include Slidesgo Content in an online or offline database or file.  
For more information about editing slides, please **read** our FAQs or visit Slidesgo School:
- Offer Slidesgo templates (or modified versions of Slidesgo templates) for download.  
<https://slidesgo.com/faqs> and <https://slidesgo.com/slidesgo-school>
- Acquire the copyright of Slidesgo Content.

# Instructions for use (premium users)

As a Premium user you can use this template without attributing [Slidesgo](#) or keeping the "[Thanks](#)" slide.

## You are allowed to:

- Modify this template.
- Use it for both personal and commercial purposes.
- Hide or delete the "Thanks" slide and the mention to Slidesgo in the credits.
- Share this template in an editable format with people who are not part of your team.

## You are not allowed to:

- Sublicense, sell or rent this Slidesgo Template (or a modified version of this Slidesgo Template).
- Distribute this Slidesgo Template (or a modified version of this Slidesgo Template) or include it in a database or in any other product or service that offers downloadable images, icons or presentations that may be subject to distribution or resale.
- Use any of the elements that are part of this Slidesgo Template in an isolated and separated way from this Template.
- Register any of the elements that are part of this template as a trademark or logo, or register it as a work in an intellectual property registry or similar.
