A 21ST CENTURY DEFENSE PUBLICATION

NAVY 2022 MEDIA KIT

From a defensive continental Navy to the highly technical forces of the world; we will examine and review the course charted by the department of the Navy and its development over two centuries. Explore what makes the Navy dominate the Air, Land and Sea, with articles focusing on the latest in development, research, and technologies. The Navy has many Commands that support their people, processes, training, mission facilities, and core technologies that make these components of the Navy a cutting-edge force keeping the fleet afloat.

INSIDE THE PUBLICATION

PROFILES Joe Biden, Commander in Chief; Carlos Del Tora, Secretary of the Navy, Admiral Michael Gilday, Chief of Naval Operations; Rear Admiral John Korka, Commander, Naval Facilities Engineering Command and Chief of Engineers; Vice Admiral William Galinis, Commander, Naval Sea Systems Command; Vice Admiral Carl Chebi, Commander Naval Air Systems Command; Rear Admiral Wyman Howard, Commander, Naval Special Warfare Command.

NAVAIR (Naval Air Systems Command) "Provide full life-cycle support of naval aviation aircraft, weapons and systems operated by Sailors and Marines." Providing research, design, development and systems engineering; and organized into eight competencies of practice including: program management, contracts, research and engineering, test and evaluation, corporate operations, to industrial operations, they provide people, processes, tools, and core technologies to Naval Aviation PEOs who are responsible for meeting performance requirements to tactical aircraft programs, assault and special mission programs, unmanned aviation, strike weapons and joint strike fighters.

NAVFAC (Naval Facilities Command) "Our expertise enables mission success." Systems Command that builds and maintains sustainable facilities, delivers utilities, and services, and provides Navy expeditionary combat force capabilities. With 13 component commands, civilians and contractors who serve as engineers, architects, contract specialist delivering the best in facilities engineering and acquisition for the Navy and Marine Corps, Unified Commanders and the Department of Defense agencies through capital improvements, environmental projects, expeditionary, public works and asset management.

INSIDE THE PUBLICATION

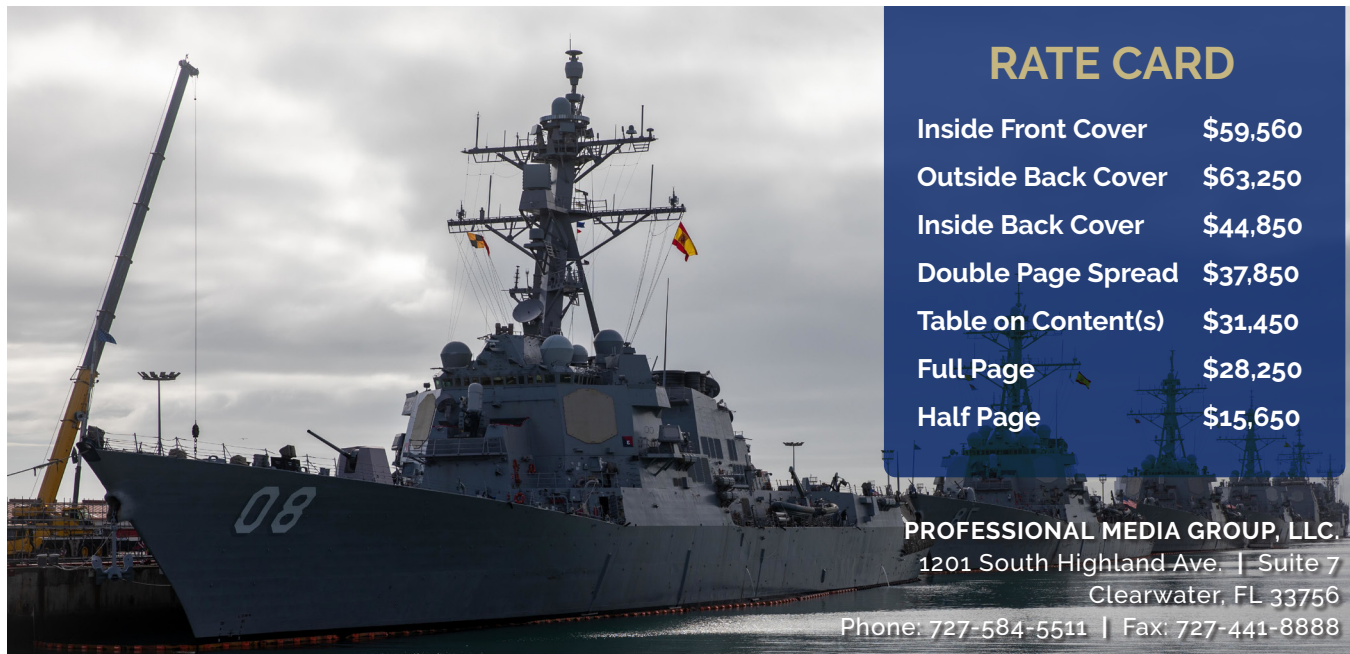

NAVSEA (Naval Sea Systems Command) "We design, build, deliver and maintain ships and systems on time and on cost." Accountable for the health of the navy, they purposely operate to ensure the Navy can protect and defend America. NAVSEA is comprised of command staff, headquarters directorates, and Program Executive Offices (PEOs) and numerous field activities. They engineer, build, buy and maintain ships, submarines and combat systems that meet current and future operational requirements.

NSW (Naval Special Warfare Command) "To man, train, equip, deploy and sustain NSW forces for operations and activities abroad and in support of combatant commanders and U.S. national interests." The SEALs have been the maritime component of the U.S. Special Operations Command. In times of war or uncertainty there is a special breed of warrior ready to answer our Nation's call.

NETWARCOM (Naval Network Warfare Command) "Execute tactical-level and control to direct, operate, maintain and secure Navy communications and network systems for the DoD Information networks; leverage Joint Space capabilities for Navy and Joint Operations." Globally and seamless, interoperable communication services that are operationally responsive, agile and tailored to meet warfighting needs.

DIGITAL DISTRIBUTION

This premium publication will also be digitized into an interactive e-magazine that will be widely distributed to opt-in email lists that have been targeted to reach procurement officers, and military decision makers and buyers.

Further outlets of digital distribution for this publication will be a co-op effort that will include the United States Department of the NAVY, the United States Department of THE MARINE CORPS, Social Media, our Advertisers and B2B partners. This will create a competitive advantage that will influence consumers purchasing decisions through a creative and innovative project.
