TEXAS GOVERNOR EXPECTED TO SIGN BILL BANNING ABORTIONS WHEN FETAL HEARTBEAT IS DETECTED

[The Epoch Times](#)

Texas Gov. Greg Abbot is expected to sign into law a bill that bans abortions after a fetal heartbeat can be detected, which can occur as early as six weeks into a pregnancy.

Texas Senate Bill 8, also known as the Texas Heartbeat Act or “heartbeat bill” was passed in the state Senate 18-12 on Thursday, and awaits Abbott’s signature. The Republican governor has indicated that he will sign the bill on the same day.

“The Texas Legislature PASSES the heartbeat bill,” Abbot wrote on Twitter. “It’s now on its way to my desk for signing.”

State Sen. Eddie Lucio Jr., one of two Democrats who voted in support of the bill, told The Dallas Morning News: “I hope that we can continue to do our best to make sure that those soon to be born babies have an opportunity to be born and live in our world.”

CDC: VACCINATED PEOPLE DON'T NEED TO WEAR MASKS

[AMERICA'S CITIZEN PRESS](#)

Washington, D.C. — The Center for Disease Control (CDC) announced that vaccinated people no longer need to wear masks, indoor or out, in most places.

President Biden followed the announcement with a tweet that gives a vaguely threatening ultimatum: get vaccinated or wear a mask.

This CDC decree comes only a week after they announced that vaccinated people still had to wear masks indoors and in crowds, so the timing on this new rule shows the continually changing standards and overall inconsistency with how the government handles COVID regulations.

Dr. Fauci has repeatedly said that vaccinated people still need to wear masks for two reasons: COVID variants and the possibility that vaccinated people can still spread COVID.

THE NCAA JUST REALIZED GOING WOKE IS BAD FOR BUSINESS

Oklahoma City, OK — The NCAA just realized that going woke is bad for business. Who would have thunk it?

Literally, every American with a shred of common sense knew it, but that didn't stop the NCAA from threatening to pull events from states banning biological males from participating in women's sports last month.

Now, they are doing an about-face and allowing states like Alabama, Arkansas, and Tennessee (which all ban biological males from participating in women's sports) to host tournaments.
