CDC FINDS MORE CASES OF HEART INFLAMMATION THAN EXPECTED IN VACCINATED YOUNG MALES

[The Epoch Times](#)

More than 1,200 cases of heart inflammation in adolescents and young adults following Pfizer's or Moderna's COVID vaccine have been reported to health authorities in the United States, the Centers for Disease Control and Prevention (CDC) said on June 23.

The bulk of the reports submitted to the Vaccine Adverse Event Reporting System, a passive reporting system run by two top health agencies, dealt with myocarditis or pericarditis experienced after a second dose of a messenger RNA-based COVID-19 vaccine.

Of the 1,226 reports of post-vaccination heart inflammation—a jump from under 800—827 were for myocarditis or pericarditis after dose two. Another 267 were after a first dose. The rest were reports after an unspecified dose.

Most of the cases were seen after the Pfizer-BioNTech shot. The others were seen after a Moderna jab.

Tucker Carlson says that President Joe Biden's administration is spying on his communications, including texts and emails.

Carlson alleged that a whistleblower told him the National Security Agency (NSA) was surveilling his electronic communications. The whistleblower reportedly proved this by sharing information that could only have been gathered from Carlson's texts and emails.

The Fox News host also stated that they filed Freedom of Information Act requests for any information gathered about the show.

FOREIGN AGENT: TOP DEMOCRAT WORKED FOR CHINESE COMMUNIST-RUN PROPAGANDA GROUP.

The National Pulse

The Democrat challenger to Republican Congresswoman Elise Stefanik has represented the Chinese Communist Party-run media outlet China Daily in a 2019 lawsuit.

The Washington Free Beacon unearthed Stefanik challenger Matthew Putorti's ties to the state-run outlet – which provides a steady flow of Chinese Communist Party propaganda and anti-American op-eds. China Daily, owned and operated by the Chinese government's Publicity Department, is also a registered foreign agent in the U.S.

Putorti has registered under the Foreign Agent Registration Act (FARA) to represent other clients including the Qatari government. He doesn't appear to have registered his work for the Chinese state-run outlet.

JOBS RECOVERY GAINS SPEED IN STATES THAT ARE ENDING FEDERAL BENEFITS

The Epoch Times

Many economists are scrambling to weigh whether the federal pandemic unemployment benefits have really discouraged workers from returning to work. There are a variety of factors contributing to the current labor shortage, they say. Early signs, however, show an acceleration in the labor market recovery in states that have ended the supplemental federal benefits early.
