CHINESE-MADE COVID-19 VACCINE RECIPIENTS WON'T COUNT AS VACCINATED: SINGAPORE

[The Epoch Times](#)

Singapore's health agency said that individuals who have received the Chinese-made COVID-19 vaccine won't count as being vaccinated.

"The national vaccination numbers reflect only those vaccinated under the national vaccination program," the country's Ministry of Health said on Tuesday. "Currently, this only includes those vaccinated with the Moderna COVID-19 and Pfizer-BioNTech/Comirnaty vaccines."

COVID-19 is the disease caused by the CCP (Chinese Communist Party) virus, otherwise known as the coronavirus.

The city-state's health officials said there is inadequate efficacy data for the Sinovac COVID-19 vaccine, namely against the Delta strain. The variant has become the most prevalent COVID-19 strain in the country.

BIDEN ADMIN TO GO 'DOOR-TO-DOOR' TO VACCINATE PEOPLE

[America's Citizen Press](#)

President Joe Biden's administration plans to go door-to-door to vaccinate people against COVID-19.

"Now we need to go to community-by-community, neighborhood-by-neighborhood, and oft-times door-to-door, literally knocking on doors," said Biden.

Watch Biden threaten to send government officials to your door to make you take an OPTIONAL vaccine.

WATCH BIDEN STRUGGLE TO SPEAK YET AGAIN

[America's Citizen Press](#)

Watch President Joe Biden struggle to speak yet again while answering questions about the U.S. withdrawal from Afghanistan.

While answering a question, Biden appeared to lose his train of thought and completely forget the name Osama Bin Laden for about five to six seconds.

"We went for two reasons. One to — five-second pause — bring Osama Bin Laden to the gates of hell, as I said at the time," Biden finally finished.

STUNNING DASZAK/FAUCI EMAILS REVEAL NON-ZOONOTIC CORONAVIRUS AND ATTEMPTS TO INFECT HUMAN CELLS.

CHRISTIAN MOTIVATIONAL SPEAKER STARTS BANK IN RESPONSE TO THE RISE OF CANCEL CULTURE IN THE PRIVATE SECTOR [The Epoch Times](#)

Nick Vujicic, a motivational speaker who traveled the world through his organization to speak to millions about his Christian faith, became a co-founder of a pro-life bank after he was kicked out of his bank, a false article was published about him, and a grenade was thrown into his house.

Vujicic, the founder, president, and CEO of the Ministry of Life Without Limbs, met with the board of his organization and was suggested to speak for the pro-life cause. Vujicic agreed, but before he even started speaking he faced all kinds of harassment.

"I got kicked out of a bank, with no warning, it froze my credit cards, froze my debit cards ... they did a review of me as a client and they don't want anything to do with me," Vujicic said in a recent interview on EpochTV's "Crossroads" program.

EcoHealth Alliance President Peter Daszak emailed Anthony Fauci in 2017 outlining his collaborative research on a "bat-origin coronavirus" with the Wuhan Institute of Virology's Shi Zhengli, which included "doing assays to find out if it can infect human cells in the lab."

Daszak titled the October 2017 email, released via a Freedom of Information Act filed by Judicial Watch, "Confidential - A new bat-origin coronavirus emerging in pigs in China discovered under our NIAID R01." Daszak appears to be referencing a \$3.7 million grant from Fauci's National Institute of Allergy and Infectious Diseases (NIAID) to the organization EcoHealth Alliance with the declared purpose of "understanding the risk of bat coronavirus emergence."

PEOPLE WHO RECOVER FROM COVID-19 AT 'VERY LOW RISK' OF REINFECTION: STUDY [The Epoch Times](#)

Researchers analyzed records from Curative, a clinical laboratory based in San Dimas, California, that specializes in COVID-19 testing and has been conducting routine workforce screening during the pandemic. None of the 254 employees who had COVID-19 and recovered became reinfected, while four of the 739 who were fully vaccinated contracted the disease.

"The big takeaway was that if you are not vaccinated, and were not previously infected, one, you have a very high risk of getting infected—24 percent of employees over a year tested positive. However, on the flip side, if you were vaccinated or previously infected, your risk was near zero," Dr. Jeffrey Klausner, clinical professor of preventive medicine and medicine at the University of Southern California's Keck School of Medicine, told The Epoch Times.
