Our website is changing Feb. 2026. The current VTA website www.vt-tow.com will be replaced by our new website vermonttowing.com which is currently under construction. We anticipate a better member experience as we will no longer be relying on an outside vendor to make changes as needed. We hope to have a website moving forward that brings value to our members’ businesses. We will let you know when it is launched so you can check it out.

We encourage you to help grow the VTA by asking other tow company owners you may know to get involved and join today by reaching out to kevin@twinlinetowing.com or any officer/director listed.
