

GOOD MORNING

These days

I've been tired of waking up alone

I want you to stay

Over when you come up to my home

Feeling some type of way

Whenever you hit up my phone

I want you you you

Haven't felt like this in years

You got me on my schoolboy

Wrapped around your finger

While my fingers do what you enjoy

Whisper in your ear

What I know you like to hear

Stop there for a second

Take a breath and clear the air

Make sure that your comfortable

That's what I like to do

Even when there's people round

It feels like me and you

Got our little bubble with no pressures of society

And I forget the times of depression and anxiety

I wanna make you mine for as long as I can

If anybody ask let em know that I'm your man

I don't wanna put more pressure on your shoulders

I just wanna have you stay whenever you come over

Baby cause these days
I've been tired of waking up alone
I want you to stay
Over when you come up to my home
Feeling some type of way
Whenever you hit up my phone
I want you you you

How'd you feel if Friday night
I get all the things you like
We watch all your favorite movies
And get high as a kite
Girl look you got me acting all corny as hell
Said I'm scared of falling in love but I already fell

Girl you tripped me
This shit ain't fair
When you kiss me
Got me walking on air
Send you poems in the morning
Make you feel like you're important
In truth I'm blindly hoping
That you're feeling the same

At work I'm so distracted girl you stay in my brain
Got me looking at the clouds and imagining things
Day dreaming of the moments when it's 2 AM
And you're the one that's singing when you're screaming my name

Got me going on and on all I'm trying to say is good morning

Cause these days

I've been tired of waking up alone

I want you to stay

Over when you come up to my home

Feeling some type of way

Whenever you hit up my phone

I want you you you
