

# Wargo is making moves again!

June 6, 2024.- Drive Your Line, LLC. Brandon, Mississippi.

206 and 2 cycle driver Derek Wargo moved his equipment to the newly formed DYL Kartsport a year ago, shortly after accepting a Drive Your Line Kart Shop Sponsored ride. Well accomplished in 206 racing, Wargo found himself the 2023 CKNA South Division Champion, Second in TSRS Championship, Back-to-back Daytona wins on two different tracks, one year at the sprint track with WKA, and the following year again with WKA Road Racing series on the road race track winning his first ever start on the road coarse at the iconic superspeedway.

Effective June 6th, 2024, Derek Wargo will become the newest Junior racer to join the Compkart Factory team for the remaining ROTAX events on the 2024 schedule. Options for the 2025 season are also on the table for all 2 cycle race events.

Drive Your Line owner Christy Kendall finds this bittersweet development something for her and partner Allen Cox to celebrate!

“When we offered a sponsorship to the Wargo family for Derek, we wanted to see him break into the 2 cycle Junior classes. Allen and I watched Derek for almost 2 years before bringing him into our fold. The partnership became the foundation for the DYL KartSport competition team. We knew we didn't want to create a team where you hand us a check and walk away. We wanted families involved; we wanted our drivers to learn, work, train, and find success together. We wanted to put an old-school twist on our team model. We are very much a work in progress as a team. Derek has proved to be an outstanding driver, a young man of character, and very professional.

When our team manager, Rett Thomas, took this young team under his wing, we knew this would be something special. Rett and Derek work well together, and Derek has developed quickly under Retts watchful eye. Sadly, we will lose him. But what better accolades than having one of your young drivers offered a factory ride from the chassis manufacturer, your dealership, shop, and team all work with? That is icing on the cake. It’s like being in the minors and getting called to the majors. I know I speak for the whole team when I say we are all proud of Derek, and it will be exciting to see where his career takes him.”

The first race for Wargo as a Compkart Factory driver will be the Rotax East event on June 21-23 at Motorsports Country Club of Cincinnati. He will continue his Road Race and 2 cycle Sprint commitments with DYL KartSport and Drive Your Line for the remainder of the 2023 season.
