Question	Response
1. What is the best thing the instructor did to help you learn, and what should the instructor improve in this course?	best thing: he gives exercises during middle of a lecture. It doesnt make me bored. should improve: he is best.
2. With reference to technology, tutorial support, and the prerequisite for this course, if applicable, what changes would you suggest to the University to make this a better course?	Familiarize students with legal research tools and databases that are essential for studying food policies and regulations. Provide training on how to access and navigate these resources.
3. What is the best thing the instructor did to help you learn, and what should the instructor improve in this course?	He is so much interactive and makes the class more interesting due to classwork and discussions. The class was nice and loved every lectures especially training sessions.
4. With reference to technology, tutorial support, and the prerequisite for this course, if applicable, what changes would you suggest to the University to make this a better course?	The room was too cold so its better to adjust the temperature of room
5. What is the best thing the instructor did to help you learn, and what should the instructor improve in this course?	Professor is the best instructor I have ever had in all of my education which includes 5+ degrees. He is kind, he was clear, encouraging to all the students, answered questions thoroughly. He gladly accommodated my need to take the test early + alone to avoid distractions and to help me focus with my concussion disability which is still healing. His knowledge and preparedness puts him at the very top in these field. My only regret is that he does not teach additional classes. No improvement is needed ...if more instructors taught like he did, TSU would attract more students. He is pro-student to the max.
6. With reference to technology, tutorial support, and the prerequisite for this course, if applicable, what changes would you suggest to the University to make this a better course?	none
7. What is the best thing the instructor did to help you learn, and what should the instructor improve in this course?	The instructor effectively incorporated real-world case studies into the curriculum, providing practical insights into food policy and regulation.
8. With reference to technology, tutorial support, and the prerequisite for this course, if applicable, what changes would you suggest to the University to make this a better course?	NA
9. What is the best thing the instructor did to help you learn, and what should the instructor improve in this course?	Class trips and in class exercises
10. What is the best thing the instructor did to help you learn, and what should the instructor improve in this course?	The certification part of the course was constructive, and encouraging students about the opportunities is the best part.

	Question	Response
11.	With reference to technology, tutorial support, and the prerequisite for this course, if applicable, what changes would you suggest to the University to make this a better course?	The exercises could be made into a kind of Google form for the small exercise answers can be discussed afterward.
12.	What is the best thing the instructor did to help you learn, and what should the instructor improve in this course?	The instructor gave class exercises during each meeting that corresponded with the lecture PowerPoint as well as having guest speakers to talk to us about the material we were covering. One of the highlights of taking this course, was when we got to tour one of the biggest snack manufacturing companies in the country. This was a fantastic experience because we got to see food science up close on a large scale. Also, that trip helped me bond with my classmates and learn things about them that I was unaware of. I took this course as an elective but it happened to be one of the best courses I have taken as a graduate student due to its content and the professor. Even though I am not an agriculture science student, this course taught me the many challenges the world has regarding food safety and policy regulations. The instructor should continue teaching the course as he currently does.
13.	With reference to technology, tutorial support, and the prerequisite for this course, if applicable, what changes would you suggest to the University to make this a better course?	None.
14.	What is the best thing the instructor did to help you learn, and what should the instructor improve in this course?	He gave us class assignments to understand the material provided.
15.	With reference to technology, tutorial support, and the prerequisite for this course, if applicable, what changes would you suggest to the University to make this a better course?	None
