Submission Guideline:

You are cordially invited to submit an abstract for the 2024 graduate poster and oral competitions. Students who are planning to present/compete in IFT24 or closely allied organizations are especially encouraged to apply. Please submit the title of your research, 250-word abstract, and name of your advisor by **Wednesday, April 3, 2024, 11:59 pm** (central time). Please also let us know if you would like to be considered for competition in poster or oral division, or both. Please note that no late submission will be accepted, and only selected abstracts (finalists) will be scheduled for competition due to limitations in space and time for presentations.

You will be notified of the status of your abstract on **Monday, April 8, 2024**. Up to 6 accepted abstracts in oral and poster divisions will be entered for the competition evaluated by the judges. The top three individuals* in each category will be awarded \$300, \$200, \$100**. All finalists will receive a certificate recognizing their achievement as a finalists.

The competition is free of cost for attendees. Applicants in any institutions in Tennessee are cordially invited to apply. Please note that per the policy of the funding agency for this competition meals will not be provided, healthy snacks will be provided courtesy of the Public Health Microbiology Foundation. Recent graduates (those who graduated late in 2023 or early 2024) could also apply to compete as long as the abstract is from the work completed as a student.

**Awards will be mailed to the awardees approximately up to two months after the event, after completion of W-9 forms and other paperwork. There is a myriad of regulations for issuing the awards using extramural grants and appreciate in advance the awardee's patience. The awards are supported by Public Health Microbiology Foundation and Public Health Microbiology Laboratory extramural grants (USDA NIFA projects 2023-70020-40768; 2021-70020-35740).*

***Awarded values will be divided if two competitors are tied.*
