CORE FABRIC GLOSSARY

SIGNATURE STRETCH COTTON

Our Signature Stretch Cotton is our most popular blend featuring cotton with a touch of stretchy spandex. This mid-weight jersey effortlessly moves with you. From day to night and season to season the Signature Stretch fabric is our original and most sought-after Peruvian cotton knit.

SOLAR STRETCH

Introducing our specially sourced active Solar Stretch fabric with UPF 50+, moisture wicking, and 4 way stretch. Solar Stretch is your new favorite lightweight fabric, perfect for all fun under the sun!

CLASSIC COTTON

Our Classic Cotton is 100% cotton that is grown, spun, dyed and knit in Peru. Soft and light, this Classic Cotton jersey has a delightful visual texture that comes from very fine slub yarn.

FEATHER STRETCH COTTON

Feather Stretch Cotton is a light and airy version of our Signature Stretch Cotton. This light stretchy cotton is perfect in warmer months, and drapes beautifully on flowy styles. This jersey knit has the smoothness and luster that comes from a luxurious fiber and is sourced from Peru.

SUPERSOFT

Picture the softest thing you've ever touched—now imagine wearing it. That's the sensation our super-soft fabric provides. Despite its cloud-like feel, this microfleece fabric offers a whisper-light warmth that's perfect for all seasons. It's the ideal companion for chilly evenings or crisp mornings, giving you that extra touch of snug without the bulk.
