

Art Etcetera Magazine – Making a Submission:

Thank you for wanting to submit to Art Etcetera Magazine – a publication designed to publish and present a diverse range of artists and crafters each month.

No matter what artform or craft you're passionate about, we want to hear about it! Be it painting, sketching, photography, sculpting, *etcetera*...

Why submit?

Should your work be selected for publication, then we will reach out to you via email directly. Following this you can expect:

- An extensive 6 page printed article about your work in our printed magazine.
- A vibrant 20-30 page digital article about your work in our digital magazine.
- Posts about your work on our social media and websites.
- Your work (via the magazine in which you feature) presented across the multiple cafes and galleries we stock with.

Submission Guidelines:

To submit your work, please simply send us the following **in one single email with the word *SUBMISSION* listed in the subject headline:**

- A document telling us a bit about yourself as an artist; who you are, what you do, etc.
 - 5 JPEG images of your most prized/meaningful works (feel free to outline why).
 - Any social media or website accounts
- Material that may be deemed hateful, pornographic, overly explicit in tone is not accepted.
You may be asked to produce identification if we can't reasonably verify your works.*

How submissions are selected:

****Subscribers are given key priority: as many subscribers to the magazine are artists themselves, this is only fair.**

- The magazine unifies artists under a single monthly theme. Though, rather than coming up with a theme and then looking for artists to fit the given subject, it's often the artists submissions that inspire the theme in the first place. So please let us know if your work has any key themes or elements – as it may well just spark an idea for an entire edition!

Copyright Protected:

Your submitted work is protected by Art Etcetera Magazine, wholly owned by Etcetera Publishing House Ltd. A company registered to publish magazine periodicals, editorials and consumer journals. Your submitted work is therefore covered by our copyright policy and will not be reused or repurposed without your permission.
