

BUSINESS BROCHURE

Company Insights, Updates & Prices

WHY US?

We focus on practical, easy-to-understand cybersecurity education that makes an immediate difference. Our training sessions are tailored to your audience, up to date with the latest threats, and free of technical jargon. Whether you're just getting started or looking to reinforce good digital habits, ICTS is ready to help you stay safe.

WHAT OUR TRAINING COVERS

- Phishing and social engineering attacks
- Password safety and credential protection
- Safe browsing and secure online habits
- Recognizing impersonation and fraud
- Avoiding scams on email, text, and social media
- Protecting personal and business data

PROTECTING WHAT MATTERS MOST

Cyber threats are not just a problem for big businesses. Every organization, no matter the size, is a target. The most common entry point? Human error. ICTS helps you build awareness across your team so your people become your first line of defense.

WHY BEING TRAINED MATTERS

Cyber awareness isn't just protection - it's a trust signal.

When your staff or residents complete ICTS training, it shows your organization values safety and responsibility.

Displaying that your staff or community is "ICTS Cyber Safety Trained" becomes a real marketing advantage:

- Build trust with customers, families, and partners
- Strengthen your reputation as a secure, forward-thinking organization
- Meet rising expectations from insurers and vendors
- Add real value to your marketing and community image

A single session today becomes a clear sign tomorrow that your organization puts security first
