

Chemical Angel Network

Ask an Expert

Chemistry, Materials, BioTech, & Energy startups and founders – got questions? Need assistance? Bring us your challenges. The [Chemical Angel Network](https://chemicalangels.com) is here to help with our free [Ask an Expert](#) program.

The Chemical Angel Network program augments the general business advice provided by accelerators and incubators with expert assistance in your industry. We offer a free one-hour online meeting with a CAN member who has relevant experience and industry expertise to help solve your difficult challenges.

The Experts

Chemical Angel Network is a nationwide network of over 100 angel investors who focus on investing in chemistry and associated fields. The group includes many Ph.D.'s and senior executives at leading companies in:

- chemicals and chemical processes
- life sciences and biotech
- medical devices
- materials and nanotech
- sustainability
- energy
- agriculture
- water

We bring a wealth of real-world experience to assist you across many business areas including:

- market evaluation
- go-to-market strategy
- process design
- process scale-up

Schedule your call

- Sign up at.....
<https://chemicalangels.com/expert> with a short description of your company and the specific challenges you'd like to discuss.
- We will attempt to match you with one or more CAN advisors with the most relevant experience and industry alignment.
- The CAN member will contact you to arrange a one-hour online meeting at a mutually convenient time.
- Prior to the call, please send your advisor any materials available including pitch deck or problem description to provide background information and context on your questions.
