## EXPERIENCE AND EXPERTISE

Our team of experienced and highly qualified **scientists, doctors and experts** from diverse fields come together to **identify** and **solve** a variety of issues that are plaguing our society. With over **20 years** of contribution in the state of Madhya Pradesh, we have **assisted** Villages, districts, Governments and MNCs to bring change on ground level and **policy-making** alike.

## WHAT WE DO BEST

In over 2 decades of actively bringing change, we have been **consistently** making an **impact** in the following fields actively

- Community health and sanitation
- Education, training and skill development
- Progressive agriculture techniques
- Tribal Development
- Capacity building
- Animal Husbandry and Livestock
- Corporate Social Responsibility (C.S.R)
- Sustainability and Renewable Energy Development

# OUR MISSION

Since the start, our mission to create **opportunities** for self-employment for rural population, farmers, educated youth, **disadvantage sections**, ensuring sustainable livelihood, enriched environment, adoption and dissemination of improved techniques, improved quality of life and good human values. This is being achieved through development **research**, effective **implementation** of local extension & adoption of appropriate technology and upgradation of skill & capabilities with a participatory approach. DKVAAS is a **non-political, secular and a professionally managed organization**.

**OUR GOAL IS TO HELP EVERYONE IN THE COMMUNITY TO GROW AND THRIVE COLLECTIVELY FOR GENERATIONS TO COME,**

Training program on briquette preparation

Farmers visit the NPV Demonstration plots

# INFRASTRUCTURE

## CAMPUS

Spread across over **50 acres**, the land is boasting an array of various activities from agricultural training, crop testing, skill development and training in multiple fields, local flea markets, melas and much more! It also comes with accommodation and dining facilities for students, staff and VIP guests.

## HANDS ON TRAINING

From vermiculture to composting and lab testing of soil types, there is faculty, facility and provisions for a package of such programs to help **benefit** the local community of farmers and rural residents to **upskill** and train themselves with traditional and **modern** agricultural techniques.

## POLYHOUSE

Students, farmers and interested members of the community participate in training programs and camps initiated by DKVAAS to **equip** themselves with new information and methods.

# FLAGSHIP PROJECTS/ EVENTS

## MANAGE –KVK-DKVAAS AS NTI

We are working as Nodal Training Institute of MANAGE Hyderabad running an AC&ABC on our project campus it is 45 day residential training at the end of which they can avail loan subsidy provided to them till date **5 crore of loan** has been provided by various banks and many more to come.

## SEED COMMUNITY BANK

Our effort to make young agriculture graduate more focused on latest technology learn by seeing, we are running RAWE programmed for 6 months till date more than 1500 agriculture graduates took field training from us and its ongoing.

## MULTI-LINE FOOD PROCESSING TRAINING CENTRE AND PLANT HEALTH CLINIC

Training, incubation, mentoring and **promotion** of **rural women** to drive entrepreneurship and self-sufficiency thereby leading to independency and **empowerment** of the **backbone** of our community. Based in Madhya Pradesh, India. We have Plant Health Clinic multiline FPTC from NHM at our project site of Raisen serving farmers and women on entrepreneurship till date more than **500** women in SHG Have been trained and **1000** plant samples studied at our lab.
