Bridging the Kindergarten Gap for Children, Families, and Communities

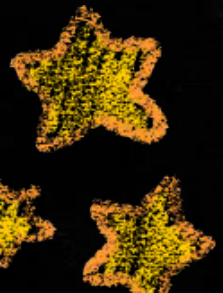

WHO ARE WE?

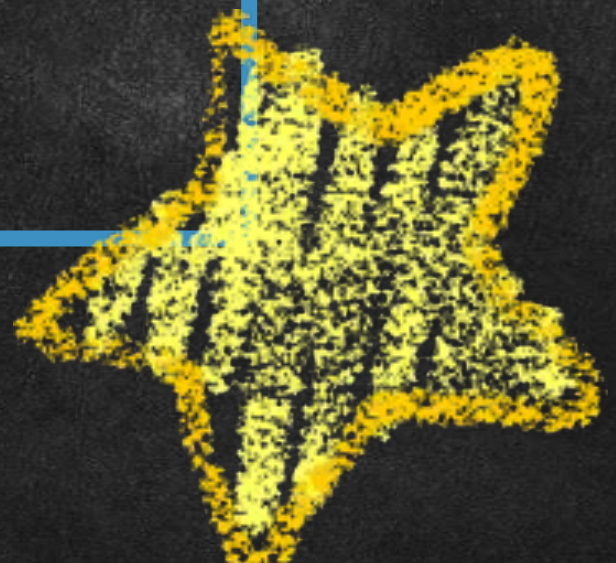

»» Our mission:

- ♥ To bridge gaps in life skills, enrichment, and stability at no cost to families.
- ♥ KinderGAP acts as an external social-work-style service, supporting your families while strengthening your center.
- ♥ KinderGAP is a nonprofit organization serving children who miss the kindergarten cutoff and the families that care for them.
 - ♥ (public schools have social workers, childcare centers don't traditionally have that resource.)

WHY KINDERGAP EXIST

- Many children miss the kindergarten cutoff and when they start school they are already behind most children their actual age.
 - Families often struggle to find affordable, holistic programs that blend academics, enrichment, and family support.
 - KinderGAP was founded to fill that gap – ensuring every child has the chance to thrive and every family can access private resources.
