

PRODUCT OVERVIEW

The URC-4 is a versatile, stand-alone room controller designed to provide complete lighting and plug load control for a space. It offers out-of-the-box functionality with an intuitive, menu-driven setup interface. Ideal for new construction or retrofits.

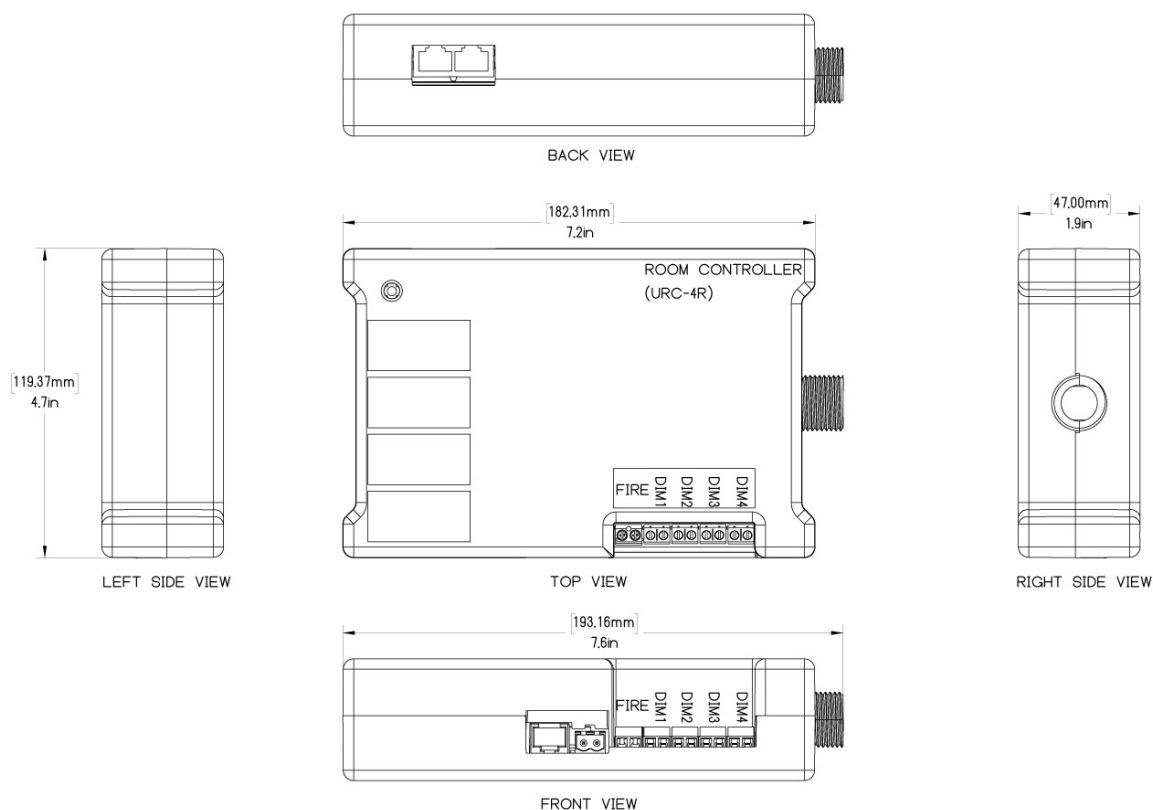

PRODUCT FEATURES

- 01** (4) 20A relays for switching control of any lighting load type or general purpose outlets
- 02** (4) 0-10V dimming channels for control of dimmable lighting loads up to 100mA each
- 03** Expandable up to 64 relay cards (1024 relays) and 12 dimmer cards (96 zones) via ARCnet
- 04** Quick system setup with ARCnet automatic device discovery - no addressing required
- 05** BACnet/IP connectivity for integration with building automation and energy
- 06** Astronomical scheduling, holiday overrides and local override control via wall stations

PRODUCT DIMENSIONS

TECHNICAL DATA

Dimensions	DIMENSIONS 7.1" H X 4.5" W X 1.85" D
Operating	INDOOR USE ONLY, 32 TO 100°F
Mounting	JUNCTION BOX WITH 1/2" NIPPLE
Output	(4) 20A RELAYS, (4) 0-10V CHANNELS
Power	120/277VAC
Driver Control	0-10V DIMMING, 100MA MAX/CH
Load Control	20A@120/277V BALLAST, TUNGSTEN 1/2HP@120/277V
Dimming	0-10VDC, 100MA SINKING/SOURCING

COMPATIBLE DEVICES
