

Disciple 101 Chapter 00

Leaders Guide

By Robert Dow April 2018

This study is inspired by the Lord. I am a regular working guy who gave his life for God to use but asked that the Lord teach me his ways to walk by Faith. I received a filling of the Holy Spirit after seeking and asking for his power in my life for a period of time. After that point I began to grow spiritually in a new way with a depth of understanding over time that amazed me. I was given a prophecy at one point that the Lord would teach me His ways and I would teach others.

In 2015 I was looking for material for a bible study group that I was a part of. I have been given a vision for discipleship. And over the years the Lord has inspired understanding of what he is looking for from his people in growing in him and following him. The Lord has given many prophecies in our area of a coming revival to his church. This will be an awakening and greater manifestation of his Spirit through his people. The Lord has shown he wants to prepare his people for greater things in the coming move of his Spirit.

While I was looking for material, I couldn't seem to find a discipleship study that took people in the direction I thought they needed to go. The information in them was good but it wasn't quite what I wanted to see. I asked the Lord where I could find something more appropriate. The Lord spoke to me then and said, "You write one". I thought about it and wondered how to even approach it. I realized that I had time to spend on it on a vacation I was about to take. I worked through what I felt should be in it according to the journey I took seeking the Lord and growing in him. I was looking for the basics in finding God's leading and calling in life. I desired to fulfill a purpose with meaning. I believed God had some purpose but I needed to find what it was and what he wanted of me to be prepared for it. He has done that over the years by his Spirit.

The Study is not designed as bible answer theology but as a guide to seeking God for his insight and faith in your walk with him. There is guidance in what to believe him and ask him for. It is up to those on the journey to trust him to give guidance and insight. The Lord has shown he will use this to help his people grow. He is behind it and that makes it a tool for him to disciple his people. This guide is a direction to go in while you seek God. "Your works are to believe in the One whom the Father has sent".

The introductory Chapters can be used for non-christians seeking God or christians who want more out of their walk and want to seek Him for that. It is means of refocusing hearts and minds on the Lord and trusting Him for what he has for them rather than their efforts at serving God. People can go through this once a year as a group or lead others and get more insight each time. May the Lord bless you.
