## 1776 CAMP FREEDOM

---

*Welcome To Our Porch*

## We The People

*We The People* have been the foundation of our country since a loose confederation of colonies became the United States.

The preamble of the Constitution tells us the exact reasons why *We The People* wanted to **“form a more perfect Union, establish Justice, insure domestic Tranquility, provide for the common defence, promote the general Welfare, and secure the Blessings of Liberty to ourselves and our Posterity.”**

The ink was barely dry on the ratification of the Constitution when those not in agreement with the U.S. being a Republic began gaining power through their fortunes.

Today, politician has become an occupation, and the only way to distinguish them is if they are Globalists or Nationalists.

It's time we learn from history and once again become the people that once formed a nation from a continent. Where we were once a self-sufficient, independent nation, we've become dependent on the whims of other countries to supply our most basic needs. Where factories once dotted the countryside, we now stare at empty shelves waiting for the next container to arrive from the seaports. What happens when the containers stop arriving? What happens when major corporations control food production? What happened to *We The People*?

## Revitalizing The Republic

We cannot turn back time, but we can revitalize our waning Republic.

The States created the Federal Government, the Federal Government did not create the States. It's time State governments wean themselves off Federal dollars, so the threat of Federal monies being withheld to control the behavior of the States becomes meaningless.

Since Congress won't regulate itself with Term Limits, it's up to *We The People* to do it for them. Get to know your candidates. Don't just vote for the same person because it's the only name you recognize on the ballot.

On the State level we need to educate ourselves on the laws and amendments presented on the ballot as well as being in contact with our Senators and Representatives at both the State and Federal level.

*They don't teach you rights in school, you never learn 'em at all*

*'Cause they're easy to remove if you don't know what they are ... Tom MacDonald*

## Education Not Indoctrination

While working to retain our Constitutional rights, it's important to protect the future ... Our children.

Teach them how to think, not what to think. Point out the indoctrination in all forms of Media.

Marketing is the oldest mind game in the history of the world, so we need **constant vigilance** against complacency. **“Refuse to be directed, a Lion not a Sheep.”**

## Going Forward

**VOTE.** Keep in contact with the politicians that represent your States and Districts, even if they are not *'your'* person. They represent you, so they should know your thoughts.

Apathy and complacency are our enemies. Keep yourself educated on the bills before your State and Federal governments. Addendums are always being added to squelch our rights. Politicians depend on the public being inattentive to their machinations until it's too late.

Do not fall into the trap of *if it's not in backyard, it doesn't matter or it doesn't matter if it doesn't affect me*. What happens when it is in your backyard, and it does affect you, but there's no one left to fight for you.

Work hard to keep America the *Land of the free and the home of the brave*.

*“Now more than ever the people are responsible for the character of their Congress. If that body be ignorant, reckless, and corrupt, it is because the people tolerate ignorance, recklessness, and corruption. If it be intelligent, brave, and pure, it is because the people demand these high qualities to represent them in the national legislature.”*

*-James Garfield*
