

Homespun Fiber Works

Fiber Processing Pricing

We provide the following services: washing (scouring), tumbling, picking, carding (roving, batts, and clouds), core-spun yarn, needle felted sheets and dryer balls.

We process wool, alpaca, llama, and mohair. At this time, we can process Suri alpaca into rug/art yarn only. We require a minimum staple length of 3" for any fiber to process it to roving. Shorter fibers can be processed into a cloud, batts, rug/art yarn or dryer balls.

Please download and complete the customer packet for custom fiber processing, which includes the order form, customer agreement, checklist, and pricing chart. Once the form is complete, please email it to us, and we will be in touch with you regarding your order and when to send the fiber. If you are unsure of how you want your fibers processed, feel free to contact us. We are excited to work with you on your fiber creations.
