COST ESTIMATIONS & BUDGETS 2020

N.E.Y. Overview

Since 2000, NEIGHBORS EMPOWERING YOUTH INC. has joyfully provided educational-career technology equipment to low-income families with education and training for free. In addition free computers with software, that will support and build new careers and opportunities for students and adults today. Exclusively throughout the Pasadena/Altadena, San Gabriel Valley and Antelope Valley communities. to new and old communities. Starting with the N.E.Y Center in Altadena, CA and moving forward to Lancaster, California and beyond.

Goals

1. Press Release
 2. Email Blasts (10-20)
 3. Website for students
 4. NEY foundation, new look and visual communication.
 5. Window Designs, posters and displays
- Re-introduce the goals and objections of Neighbors Empowerment for Youth Programs and incisive projects. Introducing new and innovative programs for high school and college bound students. Incentive events and showcase for robotics.
- CAREER TECHNICAL EDUCATION STANDARDS FOR EXCELLENCE!**

RE-open and introduce new programs for new students , adults, and more computer, and electronic technical training.

Work with major sponsors and partners to donate computers, and printers and technical equipment. That will benefit students and build careers for their futures.

Coupled with vigorous updated computer training on PC's and/ or iMac computer training and education programs.

4. Work together to support young students, as major corporations form aliases, and build relationships to support our endeavors and training we provide with your donations and support throughout the yearly and quarterly events, promotions and fundraising.

6. New branding and marketing of images, designs, promotions and email blast to partners, sponsors, and donations. To compete and challenge our students as we give them the tools they will need to succeed and become successful for life.
- Specifications
- NEY has specific computer education for the following industry professionals and Junior college training courses. Beginning the basic robotics designing and producing various introduction projects. Basic computer training and for beginners and Seniors.

Graphic Design course in Video and production. Basic drawing and composition. Certificates

Career Technical Education and training, For the following industries and professions.

Milestones Graphic Design

Basic skills in the creative process, research and development of ideas and concepts, vocabulary and business standards for designers and engineers.

Showing and developing students drawing skills and technics , research and vocabulary, drawing and planning. Then we apply these new habits and training to computer software, such as Adobe illustrator and Photoshop. Empowering students to present their ideas and visual communications through art, drawing, design, and projects that build a portfolio online and their own websites.

Engineering and Robotics

Educational basic level one training and exercises in Robotics.

A NEW NEWSLETTER FORMAT, A DIRECT MAILER!

First Month Newsletter designed for visual impact and aesthetics. For business partners, and donators to Neighbors Empowering Youth! Promoting new look for N.E.Y. and partnerships!

FREE COMPUTER TO STUDENTS!

Good morning, my name is Danielle and I'm the community outreach coordinator for Neighbors Empowering Youth a 501c3 non-profit service organization.

Founded in 2000, Neighbors Empowering Youth, Inc. (NEY) exists to inspire lifelong learning and effective use of technology.

We provide educationally-useful technology equipment to low-income youth and youth serving organizations, free or at low cost, while promoting electronic recycling throughout the Pasadena/Altadena and San Gabriel Valley communities. [FUTURE SITES IN LANCASTER CA.](#)

We accept all computer related equipment and most any electronic device. Computers, laptops, networking, and telephone equipment, even cables and mice are a few of the items that we process daily. All acquired components are reused or recycled in accordance with all Federal, State, and Local regulations. None of the equipment we process is sent to the landfill! NEY is a registered CA e-waste collector.

Since 2001 NEY has donated thousands of pieces of electronic equipment to school age youth, non-profits, and local

community organizations. NEY's ability to continue to donate this much-needed equipment is directly related to the donations of equipment that NEY receives from businesses like your and caring individuals for recycling. Give your old obsolete electronic equipment new life and purpose by donating it to NEY to help us continue donating much-needed equipment to low- income and non-profit organizations. **We believe that a child without a computer is like a school without pencils".**

Neighbors Empowering Youth understands and accepts the responsibility of protecting our client's data. Every hard drive we receive is inspected to ensure information is erased. If not, then we do it using software that meets or exceeds all industry standards, including the Department of Defense NIST SP 800-88.

Once the wipe process is complete, any hard drive that fails the wipe process is physically destroyed. Finally, a random audit is done using data recovery software to examine the drives. If information is discovered then the entire lot is wiped again. NEY is constantly evaluating our procedures and new technology as it becomes available in an effort to provide the best possible data security for our clients.

State of the Art Learning Center

Located at 2662 N. Fair Oaks Avenue. A trusted

"Neighborhood Technology Training

Center" with three areas of focus: Computer training, STEM development

Neighbors Empowering Youth Out-reach Programs

Neighbors Empowering Youth in collaboration with the Flintridge center and Washington middle school identified needy and deserving students to receive donated Lockheed Martin laptops. The Flintridge center has a mentoring program that will assist students in completing homework assignments and researching assignments on the Internet.

After school learning

N.E.Y. supports after school programs that bring together kids, parents, teachers, residents, community leaders and organization is vital in building strong, supportive communities. Successful after school programs that help young people become productive adults, gets parents involved in the children's education, produce safer streets, address community needs, home computer placement; adding to NEY's training and development programs real-world experience, qualified students are offered the opportunity to work in and run the repair and retail portion of the NEY Technology Center and/or being placed as employed technicians in local faith-based and nonprofit organizations.
