

# YOUTH FOR TOBACCO FREE INDIA

#Youth4TobaccoFreeIndia

**1.35  
MILLION  
DEATHS**

Tobacco causes 1.35 million deaths in India each year. Tobacco takes a heavy toll on the addict's family and the cost of treatment of diseases attributable to tobacco use is quite high.

Youth4TobaccoFreeIndia is a campaign of Young India Network and Nada India to strengthen Tobacco Control Laws in India to promote good health as well as protect coming generations from addiction to deadly tobacco products.

Strengthening the COTPA act 2003 shall help the nation to achieve a significant reduction in Tobacco use and a decline in the easy availability of tobacco products and facilitate India's march towards sustainable development goals creating a healthier and safe smoke-free environment.
