

# Farizon SuperVAN

Van-tastic Space, Powering Business

## WEALTH

### Win Space, Win Time, Win Profit

Larger cargo space  
Maximum charging speed 2.4C, maximum payload  
1.3-1.48T  
More load, more profit

## INTELLIGENCE

### Intelligent Vehicle

30 intelligent safety  
configurations

## STRENGTH

### Super Safety, Strong Reliability

over 70% high-strength steel in body composition  
2.8 million km extremely-condition road test  
challenges

Version	Battery Brand		CATL

AEBS, LDWS, PCW, LCA, DOW...

#### Large Space

The Farizon GXA-M drive-by-wire architecture eliminates mechanical hard connections between the vehicle body and chassis, providing SuperVAN outstanding space utilization capability. With dimensions of 5490mmx1980mmx2500mm, SuperVAN acquires a larger interior space. The outstanding trunk space ensures proper placement of cargo.

#### Driving Assistance

Equipped with ADAS configuration: with a range of intelligent driving assistance and safety features, including ACC, ICC, LCA, AEB, DOW, and more. These features can monitor driving and road conditions in real-time, enhancing active safety, improving the driving experience.

#### Strong Vehicle Body Meets European Safety Standard

The Farizon SuperVAN features a cage structure, with over 70% of high-strength in body composition, a maximum torsional stiffness of -38000 N.m/°, a maximum roof pressure resistance of -45000N, and a maximum towing capacity of -2000kg. Additionally, the robust aluminum profile electric box automatically cuts off high-voltage power after a collision, unlocks the doors, and activates hazard lights.

#### Satisfy Muti-scenario Needs

With the ability to customize the range to meet specific usage scenarios, users can maximize their economic benefits.
