Over IP

Established in 2008, Over IP is a well established IT system integrator with a huge experience in the field. Through our journey, we offered the best professional services in the market through a fully qualified team of professionals who are knowledgeable, experienced, and certified.

Vision

We aim at being the trusted advisor of our customer. Our loyalty is, exclusively, for our customers and our goal is to provide them with the best value.

Mission

We provide business outcomes to our customers by understanding their business needs and enabling them to achieve their specific business goals.
