

# Down for the Count (the WAR Mix 2022)

A reimagined, reworked and remixed 2022 version of "Down for the Count" has released. This Anthemic Anti War, Pro Humanity song is sadly fitting for recent events that should never have started. Nothing has been learnt! Still the same relevant song with hard hitting lyrics made even more impactful by a rock infused acoustic guitar by **Ma9Na** and breathy, swirling tones of **Harvey Summers** Hammond B3 organ. A stellar vocal performance by **Gerry Murrell** including a guitar solo duel with **Paul Kostromin's** "Hendrix" tortured guitar. Harvey Summers keyboards and synths cut through the mix like a beacon of hope. **Ma9Na's** Drums, Percussion and Bass create the perfect backbone for this anthemic voice of a generation.

Put your headphones on,  
take a deep breath,  
Let's Go!
