## President's Message from Harry Davis

Welcome to new members John Valencia and Geary and Margie Baria of Pittsburg. Many spectators at DVMA's fantastic Car Show were excited to see the display of Mustangs and Ford cars and said they would bring their own Mustang to the Car Show next year and asked to join DVMA. Thanks to everyone for being part of DVMA!

DVMA's Car Show was wonderful!! Members did various jobs, making it easy for everyone to do a bit and enjoy the Show. Thanks to all of you who were part of the Car Show. Bobby, Lisi, and Bill did judging, as did MCA's Robin and Paige! Matthew took care of the parking plans. Karl rescued Ed and helped everywhere on the Show site until Ed could arrive. Karen, Dwight, and Nicole started registration. Dwight was doing every little thing that needed to be taken care of! Great Show by everyone!!!! This year was a smaller Show than usual (because of the times) and every car was beautiful and in excellent shape. DVMA did judging using MCA's abbreviated judging form, so it was all about cleanliness and care. Trophies were unusual and well received.

Now that you have seen a few members with DVMA club shirts, you can order your own shirt and choose your own color. There are style choices on the order form. Look on page 12 of this newsletter or see Erik to put in your order by July 10!!!

See you at the next meeting July 13, 7:00 pm, at Fuddruckers! Come early for food and socializing. Note that Fuddruckers closes at 9:00 pm so we can talk to each other and become acquainted.

Harry Davis

# Travel, Trains, and (no) Tacos, June 18

by Erik Miller

On Saturday, June 18, a group of DVMA members met at the Country Waffles parking lot in Clayton. With five Mustangs and a Datsun, we embarked on a journey up to the Western Railway Museum in Suisun City. There we learned about the Key System electric trains that used to service the Bay Area, and connect to a larger system that ran all the way up to Chico. It was a fun day, and we got to ride on one of the surviving electric trains. We had planned to have a Mexican food lunch at La Cabana de Suisun, but due to the train schedule, we had to push it back an hour and the restaurant wouldn't be open. We adapted, and decided to go to The Point restaurant in Rio Vista. Avoiding Highway 12, Bill Kinsey led us on an awesome drive of winding backroads, past farms and wind turbines. Many thanks to Lisi Dennis for organizing this fun day out.

# DVMA Member's Mustangs

by Erik Miller, Bill Kinsey

In 2019, Bill and Julie Kinsey had finished restoring their 1966 Thunderbird and were looking for a new project when they found this red 1999 Mustang V6 coupe through the Cars 2nd Chance charity program run by the local Rotary club. Mechanically sound, this pony just needed some TLC, which the Kinseys provided. New glass, lights, and a hood were installed, along with a rebuilt automatic transmission and beautiful new red paint. They did such a great job with this Mustang that it was used in the Cars 2nd Chance booth at the 2021 Orinda Car Show as an example of how beautiful one of their donated cars can turn out. It also won Best in Class, 1994-2004 Mustang, and the 2022 DVMA Show & Shine!

With the red car looking and driving great, the Kinseys were thinking about their next project. While talking to DVMA President Harry Davis, Bill found out that Harry had a car available - a True Blue 2001 GT automatic with only 80K miles on the car and 20K on a new engine. So, in April 2021, the "Harry Davis Special", as Bill calls it, changed ownership. This is a uniquely customized Mustang. It has Cobra suspension with 13" front and 11" rear brakes, adjustable coilovers, Roush body panels, and 2001 Bullitt wheels. Pop the hood and you'll see a Roush cold air intake and throttle body for a

few extra ponies. It was even featured in the July 2007 issue of the Feed Bag. This car turned out to be not much of a project because, as Bill says, "Harry built it just as I would have."

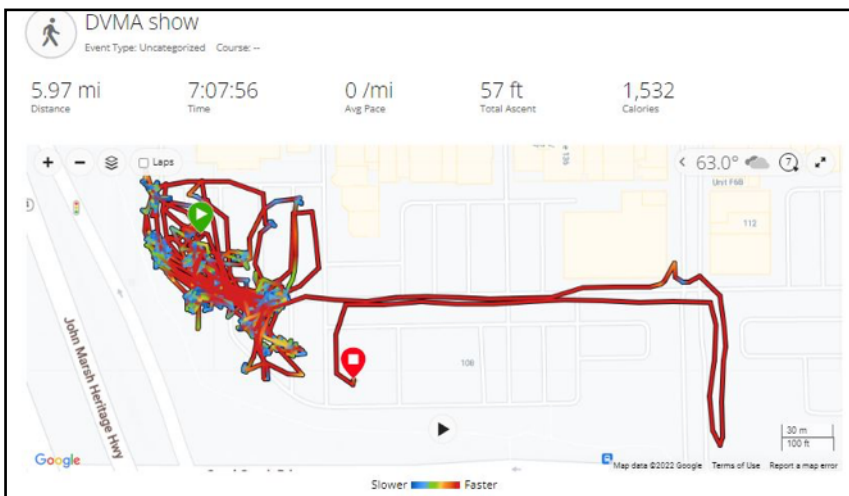

What do you do when your project cars are "done"? Drive them, of course! These cars are family projects - the Kinseys build them together and enjoy them together. They recently took both Mustangs on the 104 mile Pioneer Poker Run in Oroville, CA, not to mention the 250 mile round trip to get there and back. This annual event raises money for local charities and is sponsored by the Oro Dam Cruisers car club. Bill and Julie drove the blue Mustang, and their daughter Emily drove the red one. To make it a real family affair, they were joined by Bill's brother in his 1963 Mercury Meteor S-33, and nephew in his 1966 Mustang. Family, fun, and Fords. Sounds like the Kinseys are on to something great here. Let's join them on the next DVMA outing and drive our Mustangs like they were meant to be driven.

# Miles of car show: trekking at the DVMA Show & Shine

by Bill Kinsey

Who knew that hanging out with pals in the parking lot and showing cars could be all the exercise you really need? The Fitbit knows and it's happy to let you share the data. At our June 4th DVMA Show & Shine I turned mine on and it I wasn't expecting what it told me.

I'm a real data nerd in my work life and hobbies, and the modern fitness tracking device provides a wealth of facts and statistics. Hiking and mountain biking are my two main fitness activities, and there are some interesting categories of information that I've collected over the years. For example, in 2021 hiking and riding I accumulated 70,000 feet of

elevation gain. Elevation is something I intentionally seek trying to get between 500' and 1000' per adventure, and it's nice to have the numbers. I like to take every opportunity to track my activities so I can add to the body of data, and I made a point to do so at our June 4 show.

Typical car show activity for me involves walking the field and visiting every vehicle. Sometimes I'll make additional laps in case I missed an owner of an interesting car. Depending on the size the venue, that can add up a fair amount of distance. Our show at Streets of Brentwood, as you can see on the map, had me walking in a patch of about 2000'x2000' with a sortie or two down the lane for sign deployment/retrieval.

So, between setting up, placing signs, parking, judging, and visiting, in the 7 hours we were there my accumulated distance was 5.97 miles (12753 steps). Consumed about 1,500 calories too, but at the average speed of 0.8MPH my calorie burn here was similar to sitting in my recliner at home watching a Mecum auction. Also, somehow the device clocked my top speed as 15.9MPH which is highly unlikely given my current mass and power/weight ratio. On the other hand, the two cups of coffee that I downed on the drive over was on the move a while later and I was on the run to the portable necessities rather hastily. Most likely it's a flawed interpolation of time and distance due to satellite feed interruption, but hey, what do I know?

With that top speed anomaly aside, the data is telling me that if I'm looking for a workout, the parking lot is a viable alternative to the trail. Gas up the Mustang and break out the lawn chairs 'cuz we're going hiking!
