

## International Digital Job Fair

### AI-based job matching & live-event

In this very challenging time, IBM aims to support job seekers and business owners with the new social initiative called [SkillsBuild Reignite](#). In addition to offering free access to skills and knowledge, we host an international digital job fair to bring together employers looking for IT-entry level talent with job seekers from our NPO-partners with whom we work in training diverse talent.

### Find entry-level IT-talent with skills highly in-demand

Our candidates have skills in: *Cybersecurity, Software Development, Data Analysis, Linux System Administration*. You will find highly motivated local and international talent, starters and job changers from diverse backgrounds. Many of them will have some initial project experience.

### Fill your open positions

We are looking for all different kind of open positions!

- + Internships
- + Apprenticeships
- + Traineeships
- + Part-time jobs
- + Full-time jobs

### Preselect the candidates

We are offering a free AI-based matching solution to find the best candidates for your open positions.

### Interview your candidates

A virtual live-event offers rooms for initial interviews and we help you to arrange them.

### Present your company

Meet more talent and present yourself as employer of choice during the virtual live-event. Our candidates are interested to find out more about your company culture, projects you are working on, benefits and much more.

### Stay connected with your candidates

The AI-based platform will keep you up-to-date about your hiring efforts for 60 days.
