

## OUR MISSION

Our primary mission at Kreative Community Services (KCS) is to offer individuals with developmental disabilities person-centered services and supports aiming to achieve the best quality of life possible.

Our programs are dedicated to enriching the lives of each individual attending the program through services and supports designed to realize their potential while recognizing their unique needs.

The services and supports for each individual attending the KCS – Bloom program are developed and approved by the Individual, family members, North Bay Regional Center, and members of the Interdisciplinary Team together with the KCS team which specializes in a variety of areas including but not limited to functional communication, person centered practices, recreation therapy and behavior intervention.
