

One of our club members is now offering a full set of floor pans that were incorrect for the car he purchased them for. They fit a 63-74 TR4, TR6, or TR250. He needs pans for a 1964 Spitfire instead and will direct trade or sell at half of the purchase price. This will make the cost to you \$200 dollars if you need these pans. They are located in Fairhope, Alabama and if you would like to reach the seller, please contact the club page webmaster.
