

## ABOUT MVP

Monument Vista Place is a luxury property that features a highly functional event venue located at the base of Colorado National Monument. Strategically built with 180 degree canyon views, MVP offers 12,000 square feet of event space and ample parking for any sized function.

MVP is built in Colorado, with Colorado and by Colorado. From archways crafted from Telluride stone by local craftsmen to the 11' fireplace mantel reclaimed from a barn in the Um-compahgre Valley. Many of the giant boulders that dot the landscape are remnants of the past, as erosion and gravity pulled them down from the Monument's imposing cliffs.

# GALLERY

“Wow! MVP is an absolute gem. The setting, with Colorado National Monument as a backdrop, is stunning. We were lucky enough to stay a few nights in Stephen and Mai’s guest suite, in their magnificent desert castle. Everything in the room was brand new, and of the highest quality. The bed was really comfortable, the bathroom (including an amazing walk-in shower) was luxurious and spacious, and the outside patio was a perfect place to enjoy our coffee in the morning. Stephen and Mai made us feel very welcome, and they gave us some great tips about what to do and see in the area. Highly recommended!
