

Introducing the Apollo Heights WhatsApp Channel!

The Management Committee is continually looking for ways to improve communication with owners and residents to ensure that important information is shared effectively and promptly.

We have already invested time and effort in developing communication through a dedicated **email address, newsletters, and the Apollo Heights website**. To further strengthen these communication channels, we are pleased to introduce the **Apollo Heights WhatsApp Channel**.

This channel has been established as an additional communication tool to help owners and residents receive notifications of important updates, including utility interruptions, urgent notices, and community announcements.

The channel is a **one-way communication platform** designed for official announcements only. **Followers cannot see the contact details or phone numbers of other followers, ensuring privacy for all users.**

The WhatsApp Channel is intended to complement, not replace, our existing communication methods. Important information will continue to be made available through email and the Apollo Heights website.

Please note that the WhatsApp Channel will not be monitored for enquiries, comments or requests from owners. The established method of contacting the Management Committee remains unchanged: using the email: info@apolloheightsmc.com.

This latest initiative forms part of the Committee's ongoing commitment to improving engagement with owners across the Apollo Heights community.

Join now! by simply scanning the QR code below or follow the link provided - then select "Follow channel" and "Unmute" to get notifications.
