Drug Certification Form—(All market exhibitors must sign)

Animal/Exhibitor Disqualification: To foster fair competition, provide a level playing field and to protect the safety of food, the showing of unethically fitted livestock, livestock of any ineligible age for exhibition in the class entered, or animals being administered unapproved drugs is strictly prohibited.

Unethical Fitting: Unethical fitting means any attempt to alter the natural appearance, conformation, musculature, or weight of an animal by any unnatural means. Unethical fitting includes the use of injections or feeding of material not conducive to the health of the animal, safety of food or marketability of its carcass. Unethical fitting also includes, but is not limited to, artificially filling animals by stomach pumping, airing injections and bruising. Animals showing signs of having been unethically fitted will be disqualified.

Unapproved Drug Use: The showing of any animal that has been administered during its life any quantity of any unapproved drug chemical or medication is strictly prohibited. Such drugs include, but are not limited to any diuretic, unapproved growth stimulant or other unapproved medication. Unapproved means not approved by the Food Drug Administration (FDA) and/or the U.S. Department of Agriculture (USDA) for slaughter animals including animals that may be destined for human consumption. IF any approved drug has been administered to the animal, sufficient time must have passed so that the animal does not test positive for any drugs or chemical at weigh in.

Animal Inspection: As condition for participation in the Show, exhibitor must agree to submit any animal entered by the exhibitor for inspection. Exhibitor agrees to have such animal submitted to any tests requested by the Show. Exhibitor also agrees that the opinion reached by the Show or its officials as to whether such animal is unethically fitted or over age shall be final and binding without recourse against the Show or any of its officers. Further, the Show specifically reserves the right to have tissue, blood, or urine laboratory analysis made on any animal entered for competition. The conclusions reached by the laboratory as to whether such animal has been administered a diuretic, unapproved growth stimulant or other unapproved medication, or has not been properly withdrawn from approved drugs shall be final and binding with recourse against the Show or any of its officers. An exhibitor of an animal testing positive for any drug or medication or unapproved chemical may forfeit all rights and privileges to exhibit livestock in the future at the Show.

Junior Exhibitor

Parent/Guardian

I certify that to the best of my knowledge, the certification above is correct and I have informed the exhibitor and parent/guardian of the consequences of stated rule violations as to the uses of drugs, chemicals, or food additives.
