

Carbon Reduction Plan

Supplier name: Education and Skills Training & Development Ltd

Publication date: 1st August 2022

Commitment to achieving Net Zero

Education and Skills Training & Development is committed to achieving Net Zero emissions by 2040.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2022	
Additional Details relating to the Baseline Emissions calculations.	
This is our first year of calculations and we have utilised the SSE Carbon Calculator to produce our emissions. In future years we will compare current year emissions to this base line figure.	
Baseline year emissions:	
EMISSIONS	TOTAL (tCO₂e)
Scope 1	3.1
Scope 2	0.7
Scope 3 (Included Sources)	60.5
Total Emissions	64.3

Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next five years to 45 tCO₂e by 2027. This is a reduction of 30%

Carbon Reduction Projects

Completed Carbon Reduction Initiatives

We plan to introduce the following initiatives to reduce our carbon emissions;

- Decrease business mileage per learner on programme by 5% each year
- Switch to LED lighting (dependant on landlord)
- Commit to donating 200 trees each year to community projects to offset emissions
- Promote existing Reward Scheme to increase number of cycle journeys

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard¹ and uses the appropriate Government emission conversion factors for greenhouse gas company reporting².

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard³.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed on behalf of the Supplier:
