QUALI-PRO

HERBICIDES	PRODUCT FEATURES	MODE OF ACTION	CASE PACK	RATE RANGE
2-D Competitive Brand: Confront®	Labeled for turf,* golf courses (fairways only) and non-crop areas. Controls annual and perennial broadleaf weeds in established turfgrass including sod farms, rangeland and permanent grass pastures, roadsides, CRP land and other non-crop areas. *See label for specific state restrictions.	Post-emergent	4 x 1 gal	1-2 pts/acre
2DQ Competitive Brands: Escalade® 2, Millennium® Ultra 2, Trimec® and / or Typical Three-way herbicides	Labeled for golf courses, residential and commercial turf, athletic fields, sod farms and non-crop areas. A three-way herbicide utilizing the active ingredient Quinclorac to provide superior control of annual and perennial broadleaf weeds in golf courses, residential and commercial turf, athletic fields, sod farms and other non-crop areas.	Post-emergent	2 x 2.5 gal	1-3 pts/acre
3-D Competitive Brand: Triplet®	Labeled for turf, golf courses and non-crop areas. For selective broadleaf weed control in turfgrass on golf courses, residential lawns and sod farms. Also for use in non-crop areas such as highways and rights-of-way.	Post-emergent	2 x 2.5 gal 30 gal drum 250 gal tote	2-2.5 pts/acre on warm season turf; 3-4 pts/acre on cool season turf
Dithiopyr 40 WSB and 2L Competitive Brand: Dimension®	Labeled for nursery, landscape, turf, golf courses and non-crop areas. Early post-emergent control of crabgrass and pre-emergent control of grassy and broadleaf weeds in established turf.	Pre- and post-emergent	8 x (4 x 5 oz) 4 x 1 gal	1-4 water soluble packs/A 0.75-1.5 pts/A
Glyphosate Plus Competitive Brand: Roundup® Pro, Razor® Pro	Labeled for nursery, greenhouse, landscape, turf, non-crop areas and golf courses. Post-emergent, non-selective broadleaf weed control herbicide.	Post-emergent	2 x 2.5 gal 30 gal drum	1-5 qts/acre
Oryzalin 4 PRO Competitive Brand: Surflan® AS	Labeled for nursery, landscape, turf and non-crop areas. Pre-emergent weed control that can be used on over 400 ornamentals and warm season grasses.	Pre-emergent	2 x 2.5 gal	2-6 qts/acre
Prodiamine 65 WDG and 4L Competitive Brand: Barricade®	Labeled for nursery, landscape, turf, trees, golf courses and vegetation management. Pre-emergent broadleaf and grassy weed control. Low solubility and volatility. Allows for spring and fall use on crabgrass.	Post-emergent	6 x 5 lb 2 x 2.5 gal	0.5-2.3 oz/acre 10-48 fl oz/acre
Quinclorac 75 DF Competitive Brand: Drive®	Labeled for turf and golf courses. Post-emergent broad spectrum control of grassy and broadleaf weeds including crabgrass, clover, dandelion and bindweed.	Post-emergent	6 x 1 lb	1 lb/acre Note: for creepin bent grass consult label
T/I 2.5 G Competitive Brand: Snapshot®	Labeled for nursery, landscape, non-crop areas, ornamentals and conifer trees. Pre-emergent herbicide for certain broadleaf weed and annual grass control in landscape ornamentals, nurseries, conifer trees and non-crop areas.	Post-emergent	50 lb bag	100-200 lbs/acre
PLANT GROWTH REGULATORS	PRODUCT FEATURES	RETARDS GROWTH OF	CASE PACK	RATE RANGE
Ethephon 2 SL Competitive Brand: Proxy®	Labeled for nursery, landscape, turf, trees and golf courses. Retards growth in turfgrass, eliminates mistletoe in ornamental trees.	Listed turf and fruiting trees	2 x 2.5 gal	5 fl oz/1000 ft²
T-NEX® Competitive Brand: PrimoMAXX®	Labeled for turf and golf courses. Manages growth, improves quality and stress tolerance. Used on warm- and cool-season turf grasses and for edging.	Listed turf grasses	2 x 1 gal 2 x 2.5 gal	6-44 fl oz/acre Consult label for turfgrass species
Pac Lo 2SC	Labeled for Athletic Fields and Non-Residential turfgrass. Pac-Low is a systemic plant growth regulator that slows vegetative growth by inhibiting gibberellin biosynthesis for use on non-residential turfgrass.	Poa annua, Bermuda grass, Bentgrass and perennial Ryegrass, Fairways, Tees, Roughs	4x1 gal	Greens 6.4 - 16 oz Acre Frwy and Tees 16 - 32 oz Acre
INSECTICIDES	PRODUCT FEATURES	FORMULATION TYPE	CASE PACK	RATE RANGE
Bifenthrin G&N 7.9F Competitive Brand: Talstar®	Labeled for nursery, greenhouse, turf and golf courses. Controls numerous insects on trees, shrubs, foliage, non-bearing fruit and nut trees and flowers in greenhouses. Restricted use.	Flowable	4 x 1 gal	10-40 fl oz/acre
Imidacloprid 75 WSB and 2 FT&O Competitive Brand: Merit® 75 WSB	Labeled for landscape, turf, trees and golf courses. Foliar and systemic control of insects in turfgrass and landscape ornamentals.	Water Soluble Bag	4 x (4 x 1.6 oz) 88 x 1.6 oz 4 x 1 gal	Turf=1.6 oz (1 pack) for 8,250-11,000 ft² 1.25 - 1.6 pts/A

QUALI-PRO

FUNGICIDES	PRODUCT FEATURES	MODE OF ACTION	CASE PACK	RATE RANGE
Chlorothalonil DF Competitive Brand: Daconil® Ultrex®	Labeled for nursery, greenhouse, trees, irrigation and golf courses. Features preventative disease protection with multi-site activity which means no resistance with repeated use.	Contact broad-spectrum	2 x 10 lb	Turf = 5-8.8 lbs/acre Ornamental = 1-2.5 lb/100 gal
Chlorothalonil 720 SFT Competitive Brand: Daconil® Weather Stik®	Labeled for nursery, greenhouse, landscape, irrigation and golf courses. Features preventative disease protection with multi-site activity, which means no resistance with repeated use.	Contact broad-spectrum	2 x 2.5 gal	Turf = 5.5-9.7 pts/acre Ornamental = 1.37 pt/100 gal
ENCLAVE®	Labeled for turf, golf course, trees, greens, aprons and fairways. Also labeled for greenhouse, nursery and landscape ornamentals. First fungicide with synergistic Quad-Control Technology™.	Contact and systemic broad-spectrum	2 x 2.5 gal	Turf = 3-8 oz/1000 ft² Ornamental = 32-44 oz/100 gal
Fosetyl-AI 80 WDG Competitive Brand: Aliette® WDG, Aliette® Signature	Labeled for nursery, greenhouse, turf and golf courses. Delivers long-lasting, broad-spectrum preventative control of diseases in turf, ornamentals and bedding plants.	Systemic Pythium Blight, Yellow Tuft, Phytophthora Downy Mildew	4 x 5.5 lb	Turf = 4-8 oz/1000 ft² Ornamental = 2.5-5 lbs/100 gal
Ipro 2 Competitive Brand: 26019	Labeled for nursery, greenhouse, landscape, turf and golf courses. Provides year-round control of diseases on non-residential turf, golf courses, and non-residential ornamentals and flowers.	Locally systemic broad-spectrum	2 x 2.5 gal	Turf = 4-8 fl oz/1000 ft² Ornamental = 1-2.5 qts/acre
Mefenoxam 2 AQ Competitive Brand: SubdueMaxx®	Labeled for nursery, greenhouse, landscape, turf, trees and irrigation. Water-based formulation features low odor. Provides up to three weeks of protection.	Systemic Pythium, Phytophthora, Yellow Tuft, Downy Mildew	4 x 1 qt 2 x 1 gal 2 x 2.5 gal	Turf = 0.2-1 fl oz/1000 ft² Ornamental DRENCH = 0.2-1.0 fl oz/100 gal
Myclobutanil 20 EW T&O Competitive Brand: Eagle®	Labeled for greenhouse, landscape, turf and golf courses. The systemic solution for curative and preventative control of fungal diseases in turfgrass, ornamentals and fruit trees.	Systemic broad-spectrum	2 x 1 gal	Turf = 1-2.4 fl oz/1000 ft² Ornamental = 6-12 fl oz/100 gal
Propiconazole 14.3 Competitive Brand: BannerMaxx®	Labeled for nursery, landscape, turf, trees, golf courses and tree injection. Microemulsion formula for less odor, better tank stability and excellent plant coverage. Broad spectrum control.	Systemic broad-spectrum	4 x 1 qt 2 x 1 gal 2 x 2.5 gal	Turf = 0.5-4 fl oz/1000 ft² Ornamental = 2-24 fl oz/100 gal
Strobe® 2L Competitive Brand: Heritage	Strobe 2L is a liquid formulation azoxystrobin fungicide which contains 2 pounds of active ingredient per gallon. Strobe 2L is a broad spectrum fungicide with protectant, curative, eradicant and systemic properties.	Systemic broad-spectrum	2 x 1 gal	0.38-1.35 oz/M
Strobe® T	Strobe T is a liquid formulation azoxystrobin and Tebuconazole fungicide. Strobe T is a broad spectrum fungicide with protectant, curative, eradicant and systemic properties.	Systemic broad-spectrum	2 x 1 gal	0.75-2.4 oz/M
Tebuconazole 3.6F Competitive Brand: Torque®	Labeled for nursery, landscape, turf (non-residential) and golf courses. Excellent preventative and curative control on a broad spectrum of disease pathogens. Rapid uptake in turf provides up to three weeks of residual disease control.	Systemic broad-spectrum	4 x 1 gal	Turf = 0.6 fl oz/1000 ft² Ornamental = 4-10 fl oz/100 gal
TM/C WDG Competitive Brand: Spectro® Thiophanate-methyl /CLT	Labeled for nursery, greenhouse, landscape, trees and golf courses. Provides cost-effective broad-spectrum disease control for cool and warm season grasses, turf and ornamentals.	Contact and systemic broad-spectrum	4 x 5 lb	Turf = 2-6 oz/1000 ft² Ornamental = 0.75-1.5 lbs/100 gal
TM 4.5 Flowable Competitive Brand: Cleary's 3336® L	Labeled for nursery, greenhouse, landscape, turf, trees, irrigation and golf courses. Systemic, preventative protection against major turf and ornamental diseases.	Systemic broad-spectrum	2 x 2.5 gal	Turf = 2-3.5 fl oz/1000 ft² Ornamental = 10-33 fl oz/100 gal
SPRAY PATTERN INDICATOR	PRODUCT FEATURES	BENEFITS	CASE PACK	RATE RANGE
Foursome®	Labeled for turf and golf courses. A unique formulation pigment additive to enhance and extend the aesthetic appearance of the turf site following a pesticide application and for use as a spray pattern indicator.	Enhances and extends the appearance of turf	4 x 1 gal	15-20 fl oz/acre

*THERE'S NO SUCH THING
AS
SMART WATER*

**That's why
we develop
innovative water
management solutions
that practically give
intelligence to irrigation
and rainfall.**

VIVAX™ offers blanket coverage that results in total water management across a variety of soil types.

ALYPSO™ is rocket science for turf that utilizes naturally-derived raw materials

for firm, fast conditions while reducing run-off and standing water. **TRIPLO™** gives water direction with its unique combination

of three surfactants at a cost affordable enough for use on fairways. Look for these solutions and more from the innovation pipeline at Precision Laboratories.

Cascade G 16	Extended life soil surfactant, granular	.5# - 7# / M Every 3-6 months	42 Pound Bag
Cascade PLUS	Extended life soil surfactant	8 oz - 16 oz/M or 4 oz + 1 oz/M Duplex Monthly	2 x 2.5 Gallon/Case 55 Gallon Drum
DuPlex	Injectable soil surfactant	Initial app: 20 oz/A adjust up or down in 4 oz/A increments as needed	2 x 2.5 Gallon/Case 55 Gallon Drum
DuPlex Ultra	Ultra soil surfactant	16-24 oz/A adjust up or down in 2 oz/A increments as needed	2 x 2.5 Gallon/Case 20 Gallon Drum
Magnus	Soil surfactant	4 oz/M every 30 days	2 x 2.5 Gallon/Case 20 Gallon Drum
MagnaPlex	Magnus/DuPlex combo	5 oz/M every 30 days	2 x 2.5 Gallon/Case 20 Gallon Drum
TripLo	Penitrant, Infiltration, Hydration 2.5-5 oz/M every 14-28 days	2.5-5 oz/M every 14-28 days	2 x 2.5 Gallon/Case 20 Gallon Drum
Vivax	Premium soil surfactant	3-5 oz/M every 14-30 days	2 x 2.5 Gallon/Case 20 Gallon Drum
Vivax Tabs	Premium Surfactant for Hand Watering hot spot treatments	One 6-ounce (170 gram) tablet treats 12,000 to 18,000 sq. ft. Coverage may be affected by water temperature, water pressure and application technique	12 x 6 Ounce/Case

VIVAX™

HYDRATION AND INFILTRATION

Vivax™ is a combination of new surfactant technologies designed to manage water across a wide range of soil and turf types, making it ideal for use on golf courses and sports turf.

WHAT MAKES IT BETTER:

- Manages water across a wide range of soils and turf types.
- Effective in programs that increase microbial populations.
- Improves soil solubility and soil hydration.

Yellow Jacket® Enhanced Seed Coating

The Barenbrug advantage in seed coating technology includes using our worldwide network of research stations to create coatings that enhance seed performance, turf establishment and long-term turf performance.

Since introduced in 2006, Yellow Jacket® Seed Enhancement has proven to be a successful key to helping our customers establish turf in demanding applications. Numerous independent university tests have proven grass seed enhanced with Yellow Jacket technology greatly outperforms raw seed.

UNIQUE COATING WITH OUTSTANDING PERFORMANCE

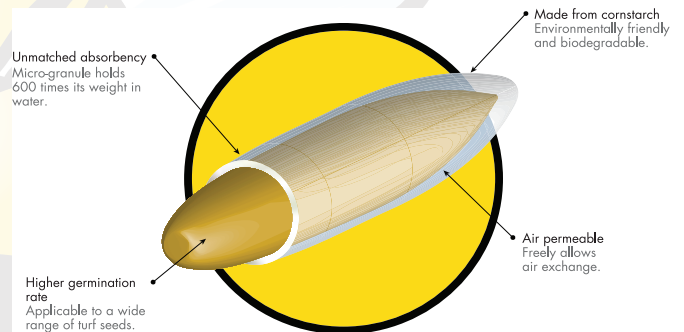

- Provides super-absorbency • Apron XL • Plant nutrition in one package
- Improved germination in low humidities, areas prone to wind, with limited water or poor coverage
- Protection against *Pythium sp.* seedling disease for up to three weeks
- Stronger, more extensive early root development
- Improved germination with stronger establishment and uniformity

How does Yellow Jacket work?

Holding up to 600 times its own weight in water, Yellow Jacket's super-absorbent coating holds moisture, nutrients and disease protection around the seed from germination through early establishment. Without coating, water quickly moves past the seed, allowing it to dry out more easily and resulting in the need for more-frequent watering, higher irrigation costs and greater disease potential.

The Yellow Jacket absorbent coating also increases the density and visibility of the seed, an especially strong benefit for smaller seeds such as bentgrass, bermudagrass and bluegrass. This added bulk density makes seeding easier and more accurate while allowing for a more uniform distribution pattern when applied with a seed spreader. Seed stays where it falls due to the extra weight and will move down through the turf canopy to the soil surface more easily.

The coating also contains Apron XL® (ai. Mefenoxam), a systemic fungicide that quickly protects the newly germinated seeds from *Pythium* seedling diseases. This protection is enhanced as the coating holds the fungicide close to the seed for up to three weeks after water is applied. During this time, new roots are protected and allowed to thrive for faster establishment and healthier growth, especially during periods of high heat and increased disease pressure.

Time lapse photography shows how quickly Yellow Jacket coated bentgrass establishes all while reducing water usage. Pine Lakes Golf and Tennis Club in Lincoln, Nebraska. Pat Jones, Superintendent was mowing at 1/2" 3 weeks after sowing.

"The Inventor of Aerosol Spray Paint"

PRODUCT	DESCRIPTION	COLORS	UNIT MEASURE PER CONTAINER
Bulk Athletic Field Marker	A long lasting field marking paint for grass and dirt. This biodegradable paint is VOC compliant, safe for grass, and dries in 30 minutes. Will not harm the uniforms or players, and can be applied by brush, roller or airless spray to produce well defined stripes.	Yellow, Red, Blue, Green and White	5 gallon pail or 1 gallon pre-mix that is ready to spray
Golf & Turf Marker	A water-base marker for use on golf courses and other porous applications. Formulated not to harm grass, this marker is not water soluble and will not wash away during rain or irrigation.	Yellow, Red, Blue, Green and White	12 x 12 Ounce/Case
