CORE CAPABILITIES

- Scheduled and time-sensitive delivery of documents, small parcels, cartons, medical supplies and return materials.
- Last-mile and regional route execution, pickups, facility deliveries, return-to-origin and recovery support.
- Proof-of-delivery documentation using signatures, timestamps, photographs, delivery notes and exception reporting when required.
- Owner-managed route planning, dispatch coordination, driver scheduling, customer communication and completion reporting.
- Peak-volume, overflow, after-hours and emergency/disaster delivery support, subject to confirmed scope and availability.
- Scheduled passenger and ambulatory transportation support for defined routes and service areas.

DEMONSTRATED PERFORMANCE

Amazon Hub Delivery Partner | September 2025-Present

- Recurring neighborhood last-mile route execution with a "Fantastic" performance rating.
- Typical operating volume of approximately 70-76 packages per route across three neighborhoods, completed in about 1.5-2 hours.
- Established scheduled transportation service since Spring 2026, with direct owner oversight and rider communication.

OPERATING CAPACITY

Owner-managed operations supported by two drivers using passenger/SUV-class vehicles suited to documents, small parcels, cartons, scheduled transportation and urgent recovery work. Cargo-van, box-truck or liftgate capacity can be mobilized after scope, payload, insurance, term and compensation are confirmed in writing.

DIFFERENTIATORS

- Direct owner oversight and responsive communication.
- Two-driver coordination for continuity and backup coverage.
- Florence base with practical Pee Dee route knowledge.
- Repeatable proof-of-delivery and exception-reporting discipline.
- Flexible support for defined territories, recurring routes and surge assignments.
