

Laws of the Journey

by Rev. Tony Senf

Laws of the Journey is an essay created and presented as part of a Doctoral thesis. It is based on an understanding of consciousness, (at the Individual, the Collective, as well as the Universal levels), Science, Metaphysics, Quantum Physics and Psychology and is based on many years of study in a number of disciplines. **Laws of the Journey** is a fundamental Principle within a larger conceptual framework of the Reality of Life itself.

Laws of the Journey

1. The Journey Has No Destination!

Only in the Tangible Realm can you reach a destination. This is not the realm in which the Science of Consciously Creating will have you working. You will be doing your exploration in the realm where things cannot be weighed or measured, quantified or qualified, can't be seen, can't be held, can't be owned. And there's no "place" to go. Besides, a True traveler does not seek a destination. The Journey is the destination.

The Science of Consciously Creating states that the True You, your True Self is an extension of Limitless, Eternal Universal Truth Consciousness. As an extension, you must be limitless and eternal as well. The Science of Consciously Creating states this to a greater extent like this:

a. Universal Truth Consciousness (UTC) - The Domain of the Highest Frequency - Unconditional Love, The Source Energy, The Creative Archetype Utilizing Free Will as the Means of Creating an Eternal, Limitless, Changeless REALITY!, Willing that every Individual Consciousness Creates in Resonance with TRUTH by means of Free Choice.

b. Individual Consciousness - A Specifically Unique Extension of Universal Truth Consciousness, a Co-Creator Utilizing Free Choice as the Means of Creating a Reality capable of reflecting/demonstrating high (REALITY) and low (reality) frequency beliefs. A Specifically Unique Instrument "tuning up" our frequencies to play in the Symphony of Creation.

c. Collective Consciousness - The Realm of the combined frequencies of all Individual Consciousnesses, The sum total of the REALITY and reality reflected by all Individual Consciousnesses, A Symphony of frequencies influencing, but not dictating (free will), the Creations of each Individual Consciousness.

d. Symphony of Creation - The Collective Frequencies we experience as "the world out there." (What the individual consciousness experiences as "my world.") Imagine what the "world out there" might be like if all Individual Consciousnesses were playing their Specifically

Unique Instrument tuned to a Resonate Frequency with the Highest Frequency of Love.

e. Free Will - Total Free Will is in the Domain of Universal Truth Consciousness. The more an Individual Consciousness raises its Frequency, the more their Free Choice transforms into Free Will and the more Consciously, Effectively, Efficiently and Expeditiously they Create.

f. REALITY - as Known by Universal Truth Consciousness

g. Reality - as perceived/interpreted/reflected/demonstrated by the Individual Consciousness

h. reality - as perceived/interpreted by the ego

i. Free Choice - Choosing between low frequency and High Frequency beliefs to Create Reality

If you really take the time to grasp the depth of this concept, you will realize that Living as your True Self is a Limitless, Eternal Journey of evolution. Therefore, **The Journey Has No Destination and:**

2. The Journey Has No Distance!

You're already there. You have always had everything you hoped you were going to get eventually. Your Reality is predicated on, based on and Created from your chosen beliefs (**The Laws of Creation**). How do you measure a belief in terms of distance? Besides, you will be doing this forever and how far is that? What is the distance from here to there?

As previously stated, you are a Specifically Unique Extension of Universal Truth Consciousness. This is your True Self, a Limitless, Eternal, Changeless True Self. You have merely forgotten due to the confabulation and delusional effects of un-true beliefs... a form of amnesia.

The Science of Consciously Creating is a powerful framework and methodology for "Remembering" your True Self, a Self that has never left you. Simple logic would dictate that if what you're seeking is already here, then you don't have to travel any distance to find it. Another way to say this is: You were Created as That which you seek, the Truth, your True Self. So stop seeking, which intimates that you don't have it. Or as it has been stated: "Those who are seeking are merely covering their eyes." And when your eyes are closed, you may believe that you have a great distance to travel when where you are going is right in front of your nose. The Journey Has No Distance! However:

3. “you” Can't Make It, Only You can

The “you” that “you” think “you” are can't make it because the “you” that “you” think “you” are isn't the “you” that you Truly are which means the “you” that “you” think “you” are is an un-true “you” and so that “you” doesn't even exist in Truth, so how can “you” make it? Your True Self can make it but “you” can't!

Universal Truth Consciousness only knows you as your True Self because Universal Truth Consciousness only operates in the Realm of Truth, only knows the Truth, the whole Truth, and nothing but the Truth, so help me... “Universal Truth Consciousness.” In Truth, and only at that level, does your True Self Exist. Of course, through the power of our Free Choice, we have made some choices in favor of un-truth, in favor of a belief that generates thoughts and feelings which reflect/demonstrate something other than the truth. Unfortunately, through this process and the unconscious application of Subjective Science, these un-true beliefs are translated into an “I am” -- and the Journey continues to the Goal that has Never Changed.

4. The Goal Has Never Changed!

“Remember”

“Remember” is a short distinction for a Law governing a journey that absolutely everyone is on, whether they know it or not, but it is a distinction that is large enough to encompass the previous three. This is our task, our mission if you will, to travel this journey without distance to the goal that has never changed. “Remembering” our True Self, the True Self we were all Created to Be! By remembering our True Self, our life changes, the world changes, the Collective Consciousness changes and Universal Truth Consciousness Expands, Extends and Evolves. This is what the Evolution of Consciousness is all about. This is what the Science of Consciously Creating is all about! Assisting everyone who is willing and able to step into being the Conscious Creators we were Created to Be. And So It Is!

Laws of the Journey

1. The Journey Has No Destination!

2. The Journey Has No Distance!

3. “you” Can't Make It, Only You Can

4. The Goal Has Never Changed!
