**As you examine this guide, and these training options, please keep the following concept of what we call the "Carnage to Time Ratio"™ in your mind as you do:**

**Carnage to Time Ratio:**

**The amount of death that your firm, school, or church has deemed to be acceptable before police arrive.**

## Famous Last Words: "It Will Never Happen Here"

**While there are many components to church security, and a variety of security threats and safety concerns that a church may face, when it Comes to Stopping the Active Shooter that is hell bent on perpetrating a murder, or creating a massacre and carnage in your sacred space, YOU CARRY THE WEIGHT.**

If You Are the Pastor or Leader of a Worship Center, Church, Mosque, Religiously Affiliated Educational Facility, Camp, or Venue, the Responsibility to Preserve the Innocent Human Life Gathered Within Belongs to You...Not to the Police, the Government, or a Hired Security Firm.

The Police Department teaches RUN. HIDE. FIGHT, because both you and they have been conditioned to believe that they are actually the first responders. They teach you to rely on them. But, unfortunately, in most lethal threat circumstances, you CAN'T solely rely on them for the preservation of life. First, they most likely will not be there when the lethal event starts, so they are the second responders. Nor, will you find any police agency that will teach you or your team the actual combative and tactical skills needed to immediately ensure that YOU can save your OWN life, and the lives of others...Even though YOU are the True First Responder.

You can rely on them to be there to Hang Crime Scene Tape, and to INVESTIGATE... But, when seconds count, the weight to protect...well, **IT BELONGS TO YOU & YOUR MINISTRY.**

The Active Shooter or Mass Killing Event DEMANDS that YOUR church ENSURES that it can actually provide IMMEDIATE PROTECTION to its children, worshipers, visitors, clergy, and staff, AND, that it can provide specifically, forcible THREAT MITIGATION against the lethal threat actor who is dedicated to killing as many people as possible, in as short of a time as possible, most often without regard to their own life.

YOU, and the Key Personnel & Administrators on YOUR Leadership Team, along with your Church's Protection and Safety Ministry Volunteers **CARRY THE WEIGHT TO MITIGATE!**

### **YOUR OWN LIFE MAY DEPEND ON IT.**

#### **Our Focus Is Very Specific:**

**Our Mission is rooted in helping you to establish layers of security based in the principles of vigilance & observation, space protection, interception, and Threat Mitigation, and in teaching you what to do when surveillance, prevention, interception, and denial of entry or access fails, and TRAINING YOU to do it.**

**We prepare your church's protection team, staff, & ministry volunteers to engage in Active Threat Mitigation through the trained use of lethal force. We make no bones about it. You Will Not Be Allowed to Fail your congregation Due to a Lack of Skills & Quality Training. This outline serves as your guide.**

*~ Jonathan W. Cross, II, President, Effective Threat Protection, Inc.*

## **Basic Planning Philosophy of Defending Against the Mass Casualty Attack:** **Practicing Security In Depth & Reacting with Immediate Lethal Force**

### **Key Elements of Large Venue & Large Gathering Security & Protection:**

#### **Security in Depth via Strategic Positioning**

To achieve security in depth via strategic positioning, your team must zero in and focus on effectively preparing to accomplish the following:

1. **Observation & Salutation:** Vigilance & Salutation at the Parking Lot; Vigilance & Salutation in the Lobby & Foyer Greeting Areas; Vigilance & Salutation at Sanctuary Entrance Doors;
2. **Protection:** Securing Spaces before, during, and after Service or Event occurrence: Doors, Exits, Halls, Paths, Large Bag Check etc.;
3. **Interception:** Physical diversion and interdiction of disruptors or would-be threat actors, i.e. "Brotherhood/Sisterhood Safety & Security Ministry; Armed Pastoral Protection Team;"
4. **Mitigation:** The Neutralization of Active/Mass-Casualty Threat Actors with **Lethal Response by a Special Threat Mitigation Team**, i.e. "Active Threat Mitigators", who are trained to the Tier 1 SF Standard
5. **Reaction:** Organized & Methodical Congregational Threat Response Training; New Members Training; and
6. **Medication:** Advanced Trauma/Wound Treatment & Training, as opposed to typical CHO First Aid/Illness/CPR training & treatment

#### **Reacting With Immediate Lethal Force**

##### **Understanding the USE OF FORCE CONTINUUM for Active Lethal Threat Mitigators:**

**If**

1. The Lethal Weapon is Produced in the Midst of the occupied space; or
2. If the Lethal Threat is HOT & ACTIVE; and/or
3. The Intention to Use Lethal Force is Threatened or Otherwise Expressed by an Aggressor; and/or
4. The Criminal Use of Deadly Force is Real and Existent

**Then**

The Threat Actor Must be Stopped Immediately Using Force, up to and Including, Lethal Force.

## **Our Methodology for Training Active Threat Mitigators to the Tier 1 Standard:**

- A. **Baseline Evaluation: Shooting & Marksmanship Skills;**
- B. **Instruction: Teaching and Building Fundamental Skills;**
- C. **Training: On Range Fundamental Component Skills Development**
- D. **Drilling: On Range Combination of Tactical Skills Components**
- E. **Evaluation: Stressed Induced Performance of Skills Under the Pressures of Time, Motion, Movement, Obstacles, Malfunctions, and Noise.**

### **Basic Training Assumptions:**

**Your team must be trained for the following conditions:**

- **Densely Populated Worship & Social Spaces:** Marksmanship Excellence cannot be compromised in such an environment. We train the Threat Mitigator to Make the Cross-Sanctuary Shot™ at 25 yards on the moving target;
- **Overwhelming Body Response:** We Train Mitigators to Perform Past the Effects of the Adrenaline Dump, Increased Cardiovascular & Respiratory Intensity, and the Subsequent tunnel vision of both;
- **Attackers May be Dynamic, in Motion, and Very Well Armed:** We train Mitigators to Have aggressive long range capability with the pistol in the "open-air" environment of a Sanctuary or Parking Lot, as well as the Closed Quarters Battle space such as a short corridor, classroom, or suite of classrooms/offices;
- **Attackers May Not Be Alone:** We Train Mitigators for the Lone Wolf Attacker, Multiple Attackers, and for the Frontal assault and the Ambush Attack, and to counterattack using countering angular assault, ambush, and off line of attack techniques;
- **Attackers Wearing Body Armor:** We train Mitigators on how to shoot to defeat and negate body armor, bullet resistant vests, and ballistic plates;
- **Attacks May Occur from Different Planes and from Balconies:** We Train Mitigators to be able to accurately Neutralize the lethal threat actors from elevation; and
- **Attackers WILL Have the Element of Surprise:** We Train Mitigators to overcome the Attacker's initial surprise-based tactical advantage, thereby disrupting the OODA Loop, i.e. total disruption of the attacker's prior Observation, Orientation, Decision, and Action-based plans and attack initiative.

## Establishing The Worship Organization Active Threat/Mass Attacker Security Posture:

At Effective Church Protection, Inc., we propose that, when possible, it is desirable for a church to have **FOUR** Distinct, yet cooperative and symbiotic Teams as part of an Overall Safety & Protection Footprint:

1. **A Close Protection/Dignitary Protection Team:** *The Armed Pastoral Protection Team, i.e. Armor Bearers*
  - a. Primary Focus:
    - i. Pastor & First Family Protection;
    - ii. Escort & Protection of Special Guests and High Risk Service Participants;
    - iii. Protection of the Pulpit and Stage Space;
    - iv. Protection of Children's Church/Nursery Area
  - b. Skills Required: De-escalation; Empty Hand/Grappling; Disarmament; Point Shooting Handgun Abilities, Customer Service & Hospitality Mindset; Basic CPR
  
2. **A Visibly Identifiable Safety Ministry:** *The Un-Armed "Brotherhood/Sisterhood"*
  - a. Primary Focus:
    - i. Crowd Control & Behavioral Modification/Threat Actor Interception
    - ii. Up-close and Personal Interdiction: Hands On
    - iii. Parking Lot Monitoring and Traffic Direction
    - iv. Door Monitoring/Bag Checking
    - v. Hall Monitoring; Lost Children, etc
    - vi. Protection of the Alter/Sanctuary/Aisle
    - vii. Children's Church-Nursery Guard/Protection
    - viii. Foot Traffic Control: Ingress, Egress, and Emergency Evacuation
  - b. Skills Required: De-escalation; Empty Hands Defense; Disarmament; Point Shooting Handgun Skills; Customer Service & Hospitality Mindset; Basic CPR
  
3. **An Armed, Well-Trained, Clandestine, Immediate Reaction Active Threat Mitigation (ATM) Team:**
  - a. **Primary Focus:** Protection of Congregants & Visitors within the Sanctuary Spaces, Halls, Classrooms, and while ingressing and egressing onto or out of the worship facility and parking lots. THESE ARE ACTIVE "Plain Clothes" LETHAL THREAT RESPONDERS made up of Faithfull personnel pulled from several key, well-positioned ministries:
    - i. Ushers
    - ii. Greeters
    - iii. Brotherhood
    - iv. Music
    - v. Media
    - vi. Deacons/Diaconate
    - vii. Elders
    - viii. Pastoral Team
    - ix. Trusted Church Staff
  - b. Positioning: At All Entrances, both inside and out; Triangulated on Parking Lots; Strategically Placed Within Sanctuary at Differing Elevations; Outside or Within Nursery/Children's Church Areas;
  - c. Skills Required: Tactical Marksmanship & Dynamic Movement Skills for both Pistol & Carbine; Disarmament; Empty Hands, and De-escalation; Customer Service & Hospitality Mindset

#### 4. A Reactionary Trauma Care Team/Church Health Organization

- a. Primary Focus: Immediate Emergency Trauma Care: Wound Treatment and Bleeding Negation
- b. Skills Required: Combat/Trauma Medical Care, Triage; Wound Packing; Tourniquet Application, Basic CPR

#### **KEY PROTECTION PLANS**

***Plans for the Following 15 Occurrences & Spaces Must be Written, Articulated, Implemented, Followed, & Refined Specifically For & By Your Church:***

1. In Relation to a Personal Attack on the Pastor, First Family, and other Clergypersons:
2. In Relation to the Active Shooter/Mass Killer:
3. In Relation to the Fire Alarm:
4. In Relation to the Parking Lot:
5. In Relation to Nursery & Children's Church
6. In Relation to Benediction:
7. In Relation to Pre-Service Facility Check, and Post-Service Security Footprint
8. In Relation to A/V Media & Screen Warning Response:
9. In Relation to Person of Interest/Suspicious Person Profiling
10. In Relation to Known Domestic Issues
11. In Relation to Training & Skills/Talent Development
12. In Relation to Closed Circuit Feeds & Monitored Video Monitoring;
13. In Relation to Communications;
14. In Relation to Weapons Awareness & Armed Team Safety
15. In Relation to Team Personnel:

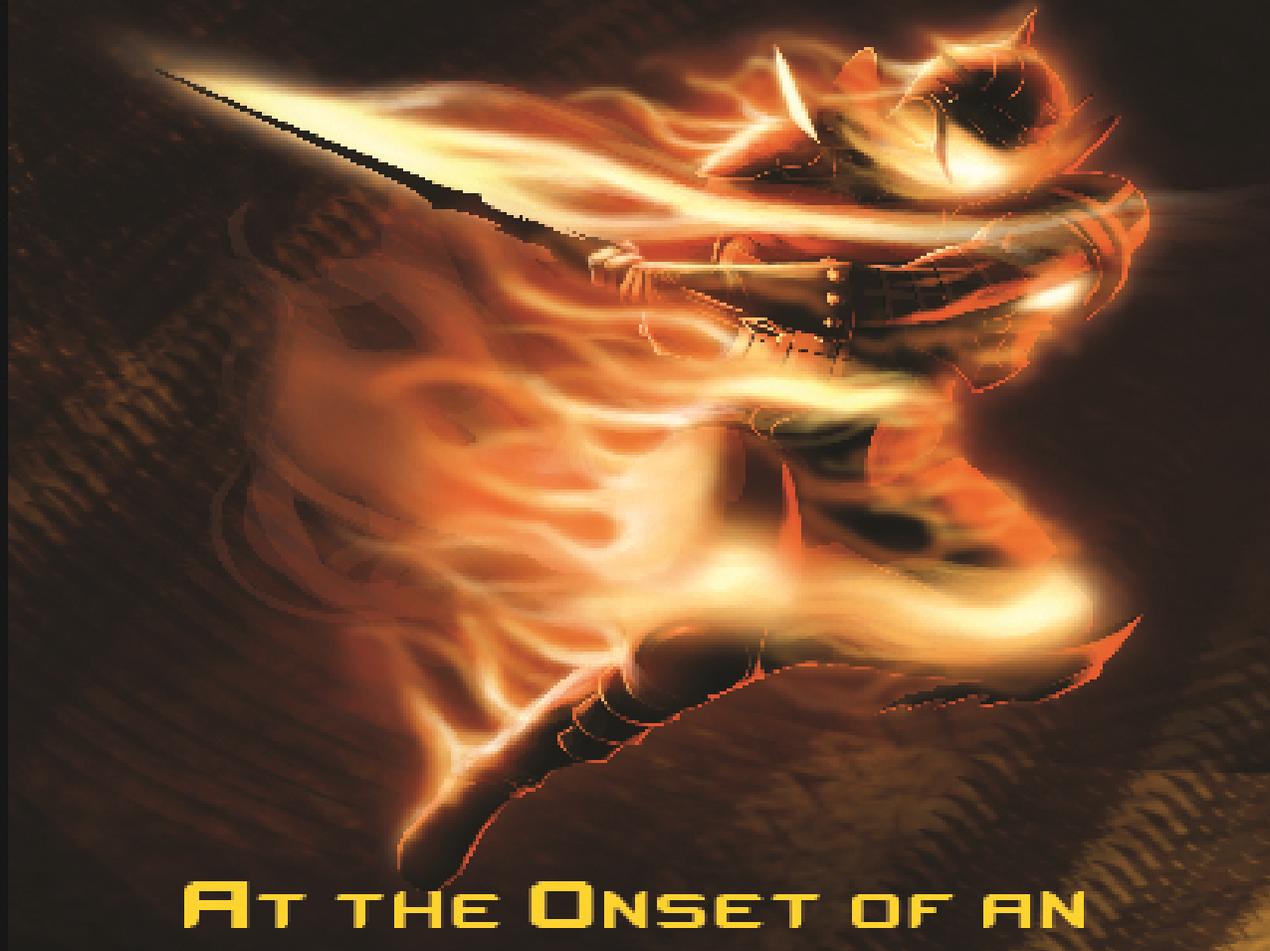

**We can provide guidance with fleshing out the details of these 15 Essential Plans.**

**Give us a call: 901-329-9900**

**AT THE ONSET OF AN  
ACTIVE SHOOTER EVENT,  
DON'T WAIT! MITIGATE!!!!**

- Equip Those Who Have The Watchman's Spirit with the Mitigation Mindset
- Prep, Train, & Drill Your CONGREGATION & TEAMS to Respond Decisively

**DEUTERONOMY 6:16; MATTHEW 4:5-7; 1 CORINTHIANS 10:9**

## PREPARING THE TRUSTED TO MAKE THE CROSS SANCTUARY SHOT™

At the Onset of an Active Shooter/Lethal Threat Event in Church, You CAN'T Wait! You MUST Mitigate!

The decision to introduce an armed Church Protection Team into your congregation is not a decision that can be made on a whim or cavalierly. But, the consequences of not having a well-trained threat mitigation force in the service of your congregation are truly Life and Death, if the need should ever arise. There will be no do-overs to that event!

Most state's required Concealed Carry Permit courses are very basic and do not properly prepare would be "Security" Ministry Members to appropriately and safely engage an Active Shooter in a crowded church. The truth is that personal defense training and shooting standards are insufficient for actual personal defense. Only with advanced training, will Security Ministry & Church Protection Team Members learn how to best respond and neutralize the Active Shooter(s) at distance.

Effective Church Protection, Inc, & Dauntless Tactical Training, Inc™ offers some of the most advanced tactical firearms training to ordinary civilians in Memphis and the MidSouth, and we are committed to providing your Church Protection and Security Ministries with the most comprehensive training available. In addition to our Dynamic Protector™ and Tier 1 Citizen™ courses, we also offer custom Active Threat Mitigation™ training solutions, including on-site evaluations, advanced Tier 1 Special Forces/SWAT level firearms training, active shooter response training, shooting skills refreshers, and shooting recertifications, along with a Tier-1 Civilian Active Threat Mitigation™ Certificate. Our leveled approach will allow you to tailor your threat mitigation training to meet both your budget and security needs.

*WHY MUST WE ARM OURSELVES TO SAVE LIVES IN CHURCH?*

Because not every soul that sits in the pew has been, or is, saved, or has come to the worship center to be saved. Therefore, we must preserve the lives that are yet seeking, and stop the acts of those who have come as wolves to devour the flock.

### **First Principles of Responding to the Active Shooter/Mass Casualty Threat Event:**

The protection of life in crowded venues LIKE CHURCHES AND SCHOOLS, is serious business, and it requires Real & PROVABLE skill;

Since you can't wait for the paid public servant to arrive, you must be able to mitigate the treat immediately, while awaiting the 9-1-1 response.

### **Providing Discrete & Confidential Tier One Tactical Training Consisting of:**

**Fundamentals of Advanced Pistol Marksmanship**

**Comprehensive Advanced Tactical Weaponry: Pistol & Carbine**

**Tactical Movement ● Target Transitions ● Multiple Threat Engagement**

**Weapons Manipulation ● Shooting Positions ● Use of Cover & Barriers**

# ELEMENTS OF EFFECTIVE CHURCH PROTECTION & THREAT MITIGATION

## 2. A Threat Mitigation Mindset

A congregation of worshipers in a church deserve to have a **SECOND LEVEL** of **EXTREMELY WELL-TRAINED NON-TRADITIONAL THREAT MITIGATORS** strategically placed within the sanctuary, lobbies, parking lots, and other key areas of observation, gathering, and concern, as a back-up to the visible security ministry. And these people must have a **Sheepdog's Protective Mindset**.

## 3. A Training-based Tier ONE Level Skillset

When it comes to preparing your church's "Protection" ministry to stop the Active Lethal Threat that is threatening lives **RIGHT NOW**,

**WE FOCUS ON ONE THING:**

"Teaching Your Sheepdogs, Your Threat Mitigators, How to Reliably and Safely Make the Cross-Sanctuary Shot™ with Both the Pistol & the Carbine While Under Acute Stress."

## 4. An Inconspicuous, Well-Trained Team of NonTraditional Threat Mitigators

Recruiting from your various church ministries, we are **Laser Focused** on helping you to develop, train, and equip your Church with a covert, discrete, and dauntless **Active Threat Mitigation Team** that is skilled enough to **IMMEDIATELY Respond** to the lethal threat actor with a **Lethal Response** that is Precise, and equal to, or greater than, the tactical response that a police department or SWAT team would deliver when they finally arrive on scene 4-12 minutes after a 9-1-1 call has gone out, and after all the carnage has already been inflicted. We Call this team the **5-S** or the **7-S**.

## 5. An Understanding of Your Church's Responsibility

A Mass Shooter Event **DEMANDS** that a church **ENSURE** that it can actually provide **IMMEDIATE PROTECTION** to its

worshipers and visitors, specifically, **FORCIBLE THREAT MITIGATION** against the lethal threat actor who is dedicated to killing as many people as possible, without regards to their own life.

# EFFECTIVE CHURCH PROTECTION, INC.

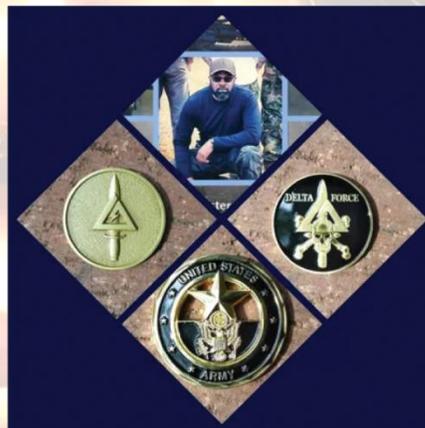

## UNDERSTANDING THE NEED FOR UNCOMPROMISED TRAINING STANDARDS

Protection Based on The Most Rigorous Standard of Training: **TIER ONE**

### What sets our training apart?

WE HAVE A STANDARD OF BOTH RIGOROUS INSTRUCTION & OBJECTIVE EVALUATION.

**Effective Threat Mitigation™** is a different skillset than executive or dignitary protection, as the purpose of Threat Mitigation is to protect the SPACE AND the MULTITUDE OF PEOPLE WITHIN IT, not just one or two Principle/High Value assets. It requires that the threat mitigator be able to DOMINATE the accosted space, and take it back, if need be. This mission imperative requires a very specific set of high level firearms, tactical, and combat related skills.

### WHAT IS THE DIFFERENCE, YOU ASK?

In dignitary protection, you MOVE, or fight to move, the target or protected asset, i.e. the Primary, to safety. In a church, that would be the role of the Armour Bearers, or what we call the Armed Pastoral Protection Team. Their attention is always on the whereabouts and security of the "Primary," i.e. the Pastor, and serving as an appropriate defense and barrier between him or her and would-be aggressors.

But, in threat mitigation, you intensively AGGRESS the threat actor, i.e. the attacker, violently to CREATE SAFETY, because EVERYONE is the potential target. There is NO OTHER FOCUS than that, except that this task must be carried out quickly, and immediately, while also ensuring the safety of everyone else in the threat environment. You must neutralize or kill the attacker(s) without harming anyone else. That IS THE STANDARD. We call that, the ability to make The Cross-Sanctuary Shot,™ and The Cross-Campus Shot.™

Due to the serious and dynamic nature of protecting innocent lives in crowded spaces, long halls, or expansive sanctuaries, we can take no chances on issuing a Tier 1 Civilian Threat Mitigator™ Certification to anyone who hasn't completed the entire course of training that we provide Non-Traditional Threat Mitigators like church ushers, musicians, elders, media teams, greeters, and other ministry volunteers, etc.

THEREFORE, WE CAN TAKE NO PRIOR SKILLS OR TRAINING FOR GRANTED, NOT EVEN MILITARY, POLICE OR LAW ENFORCEMENT EXPERIENCE OR TRAINING, UNLESS WE CAN CLASSIFY IT AS HAVING BEEN AT THE TIER ONE LEVEL. Even then, the student must be evaluated, and drilled with rigor.

We WILL build every church or school threat mitigator from the ground up. NO EXCEPTIONS.

### Why Such A Rigorous and Hard-nosed Stance?

Because the stakes are too high, and the crowd density potentially too great to presume proficiency.

**WE ARE GOING TO BUILD PROFICIENCY, MEASURE IT, EXPAND IT, ENHANCE IT, STRETCH IT, TEST IT, and PERFECT IT. Only then will we CERTIFY someone as a Certified Tier 1 Civilian Threat Mitigator.™**

**TRAINING OVERVIEW:  
PREPARING TO STOP THE THREAT IMMEDIATELY**

## House of Worship Security Planning

An Active Shooter or Terrorist Attack can happen anywhere

6 week Certified Church Threat Mitigator: Tier-1 Protector Comprehensive Training  
Core Module\*

## PREPARING THE TRUSTED TO MAKE THE CROSS/SANCTUARY SHOT™

This 160 hr/20-day course is a MODULAR COMPREHENSIVE, and is for the clandestine NON-Traditional Church "Threat Mitigator:" Greeters, Ushers; Musicians; Elders; Staff; A/V teams, Camera Operators; etc.

The **SIX** Session 2-day & 3- day training modules will provide students with Tier-1-Level Tactical Training in firearms deployment within a densely populated space such as a large church sanctuary. Mitigators will learn to shoot precisely using tactical movement & communication to neutralize the well-armed active shooter, using a variety of firearms platforms.

\*Defending worshipers and guests in churches requires the HIGHEST STANDARD OF CARE. Thus, we have developed this extremely rigorous and comprehensive core training module for church protection teams to undergo. Though we offer some less rigorous training choices, we strongly advise church leadership that only trainees who successfully complete and perform to our Tier-1 SF Tactical Firearms Training Standard will receive the Certified Church Threat Mitigator/Active Threat Mitigation Certificate as defenders of congregants, church sanctuaries, and church campuses. We will certify nothing less than the comprehensive.

## EFFECTIVE CHURCH PROTECTION INC

& VOLUNTEER SECURITY MINISTRIES

DEUTERONOMY 6:16; MATTHEW 4:5-7; 1 CORINTHIANS 10:9

### Tier-1 Instruction & Training Modules

The Non-Traditional Threat Mitigator will learn and develop Brilliant marksmanship skills, such as to be able to make precision shots with the semi-automatic pistol/handgun from great distances, and under acute stress. This training shall be the basis of performing the Cross-Sanctuary Shot™ on demand, with either hand and under difficult circumstances. It will help establish the mitigator as the owner of the sanctuary and the aisles.

### Tier-1 Tactical Movement & Drilling Module

A Threat Mitigator must be able to make the Cross-Sanctuary Shot™ while he/she is on the move and simultaneously engaging a moving active shooter through a crowd of innocent potential victims, without harming any of the people between the mitigator and the threat actor, or anyone behind the attacker. Instruction within these modules will ensure the conveyance, transference and assimilation of these and other tactical skills.

### Advanced & Special Weaponry Training Modules

The threat Mitigator will continue to learn and establish Brilliant skills with the handgun, as well as gain Tier-1 weapons manipulation skills with the handgun, along with marksmanship, manipulation, and movement skills with both the handgun and with the tactical defensive pistol or rifle caliber carbine. Mitigators will learn to aggressively engage attackers from elevation, dynamic shooting positions, and from behind barriers and positions of cover.

### Defensive & Disarmament Modules

The Threat Mitigator will develop weapons retention skills, disarmament skills, and acquire the ability to turn an attacker's weapon back against himself, as well as learn to pick up an attacker's weapon, problem solve it, and potentially use it to engage other potential attackers with equal or greater firepower that they have brought to bear in the initial attack

### Crowd Management & Congregational Prep Modules

The Threat Mitigator will learn techniques that will empower him/her to safely move against and through the crowd in a stampeding environment in order to engage a threat actor with lethal force, without losing his/her firearm, flagging or muzzling fleeing innocents, or having a negligent discharge of their weapon in the process. Detailed instruction on practically prepping the congregation for a Active Shooter Event will also be conveyed.

### Evaluation & Recertification Modules

Given the perishable nature of unused shooting and marksmanship skills over time, Threat Mitigators will be required to maintain certification and demonstrate retention of dynamic shooting capabilities to the Tier-1 Standard.

3 Day Church Security Team Firearms Training Camp

This customizable 3 Day Training Camps serves as both a shooting & tactical skills builder for the individual, but also gives the entire team the opportunity to train at mitigating, moving, & communicating as a unit under close observation & correction.

The church's protection/security ministry will enjoy a time of bonding as a brotherhood & sisterhood in Christ, as the shepherd's Sheepdogs & protectors of the flock. This is also an opportunity to evaluate prospective additions to the protection ministry, and/or for introductory or foundational firearms and marksmanship skills building.

Pricing:

3- Day Camp: \$875 per trainee

Annual Threat Mitigation Skills & Drills Refresher

As a Threat Mitigator in densely populated environments like schools & churches, shooting proficiency **MUST BE UNQUESTIONED.**

Marksmanship skills are perishable over time, if not practiced routinely. As such, with an emphasis of accuracy, speed, manipulation, & movement, DRILLS Refreshers will sharpen your shooting performance while under the stress associated with tactical movement, uncomfortable positions, & time, through the corrected execution of drills and skills of increasing difficulty.

Pricing: \$225

5 Day Church Protection Ministry Training Camp

The 5-Day Training Camp is a customizable instructional and drilling intensive that expands the training and team building of the 3-Day training camp, and gives more time for intensive back-to-back days of skills reinforcement under expert observation.

The 5-day also allows for focus on alternative tactical weaponry and other mitigation skill sets, including weapons retention, disarmaments, alternative shooting positions, etc.

Pricing:

5- Day Camp: \$1,500 per trainee

2-Day Annual Threat Mitigator Re-certification

The annual Re-certification consists of a Half day of Safety, Marksmanship Fundamentals, Weapons Manipulations, and Malfunctions Skills Refreshers, and 8 hours of tactical, moving and reflexive fire drills, followed by 4 hours of evaluation and re-certification of drills- and scenario-based shooting exercises involving Mitigator movement, moving targets, & shoot-no-shoot tests in a threat space filled with innocent no-shoot targets in the the foreground and background of the threat environment.

Pricing: \$475

6 week Certified Church Threat Mitigator: Tier-1 Protector Comprehensive Training Core

This 160 hr/20-day course is a MODULAR COMPREHENSIVE, and is for the clandestine NON-Traditional church "Threat Mitigator." Greeters, Ushers; Musicians; Elders; Staff; AV teams, Camera Operators; etc.

The Six 3 & 2-day training modules will provide students with Tier 1-Level Tactical Training in firearms deployment within a densely populated space such as a large church sanctuary. Mitigators will learn to shoot precisely using tactical movement & communication to neutralize the well-armed active shooter, using a variety of firearms platforms.

Pricing: Call 901-329-9900, or visit our website at

[www.dauntless tactical.com/church-protection](http://www.dauntless tactical.com/church-protection)

Discounts Are Available

6 Day "Minister of Defense" Instructor Training\*

This train the trainer class is designed to develop Active Threat Mitigators who can return to their churches as true subject matter experts, & teach others to make the Cross-Sanctuary Shot.™

Students will increase their effectiveness with the pistol & their ability to instruct others in its safe & proper use, & will also conduct "Teach Backs" of learned material to Dauntless instructors & fellow students. The Passage of practical & written exams is required to receive an Instructor Certificate.

Pricing: \$2,400 per trainee

**Reflect again on the concept of the Carnage to Time Ratio™**

**Now the Question For YOU Is:**

**What is YOUR  
Carnage to Time Ratio?**

**Write Your Answer Here**

**Please See the Next Page:**

To the families of your congregants, parishioners,  
guests, and visitors, that number,  
*THEIR* Carnage to Time Ratio,<sup>™</sup>  
is  
**ZERO.**

*When the threat is ACTIVE, one life lost is one life TOO MANY.*
