

For Math Skills, every student has an IXL account. To access the IXL website type the following in your browser: <https://www.ixl.com/signin/corpuschristict>

Students should work 10 minutes a day or one hour per week. Students should work in skills of their last completed grade.

New students will receive an email with the username and password.

Returning students will use the IXL account they received during the year.

Troubleshooting: IXL usernames are typically the first letter of your child's first name, your child's full last name ending with @corpuschristict. There are some exceptions to students with same last name & same first initial with siblings or other students.

If your child forgot their password, click on "Forgot Password" on IXL Homepage. If your child forgot their username or if you are unable to sign onto IXL with your account, you can contact Mrs. McKearney via email at amckearney@corpuschristischoolct.org.
